Our Privacy Policy - Your Choices and Controls

We're happy to tell you details about the information we collect and how we use it. You have choices about how we use your information. Review a Policy summary at www.att.com/privacy or the full Policy at www.att.com/privacyfull. Then check out your choices at www.att.com/yourchoices.

Equipment Return Policy

Items with proof of purchase that are like new condition and include all accessories, manuals and original packaging can be returned within 14 days of purchase or shipping unless they're closeout items. You'll be charged a restocking fee of $35/10%, except where prohibited. See www.att.com/returns for details. Authorized Retailers and other locations may have different policies.

Cancellation Policy

You may terminate this Agreement within 14 days of activation without paying an ETF. Any activation fees will be refunded if you cancel within 3 days of activation. You'll be responsible for all fees and charges incurred through the date you cancel. Additionally, you must return any Equip. and accessories purchased with this Agreement. If you return after 14 days, you'll be charged an ETF for each phone number or Equip. ID number associated with this Agreement. See www.att.com/equipmentETF.

Manufacturer's Warranty

Manufacturers offer a one-year warranty on NEW equipment and a 90 day warranty on AT&T Certified like-New equipment. For repairs, replacement of your equipment with original proof of purchase, call 800.331.0500 or visit www.att.com/dsc to find the nearest Device Support Center. For all Apple products, tablets or gaming devices, contact the manufacturer. Visit www.att.com/devicewarranty for a list of manufacturers and additional warranty information.

FREE Identity Theft Resolution Services

Dear Valued Policyholder,

We are pleased to announce that Preferred Mutual policyholders automatically receive identity theft resolution services powered by Identity Theft 911, LLC. This service is another way Preferred Mutual is dedicated to exceeding our customers' expectations.

Now you and your family have access to a highly trained fraud specialist whenever you have a question about identity theft. Simply call a toll-free number 1 800 333 7642 ext. 1197 to be transferred to Identity Theft 911. The specialist will help you through the entire process of action, cut through the red tape, and handle all the hard work for you.

With your new Identity Theft Resolution Services, you can count on:

- **Proactive Services** – Identity criminals are out and about. Identity theft can happen in the blink of an eye. Whether during a burglary, accident, or while you were using an ATM or laptop. If you find out that your personal information has been compromised or that a breach has occurred, we want to safeguard your credit and identity as much as possible. Identity Theft 911 has a local presence in many communities when you are called for active military duty abroad.
- **Resolution Services** – Should you become a victim, we will completely resolve identity theft for you. We will assist you in placing fraud alerts with the three major credit bureaus, notifying creditors and financial institutions, monitoring your credit reports and accounts, and more. Free credit and fraud monitoring for identity theft victims. The Identity Theft 911 specialist will be your personal advocate in the event that a home break-in or wallet theft occurs.
- **Document Recovery** – Losing or misplacing important documents can be a nightmare when traveling abroad or after a victim of a natural disaster or fire. Identity Theft 911 will help replace important documents and identification.
- **Identity Theft Education** – With education comes awareness. Identity theft education and awareness are your best lines of defense. Visit www.preferred-mutual.com/identitytheft.com to access the unparalleled, daily updated website dedicated to identity theft, news alerts, interactive quizzes, and preventative guidelines.

It's really very simple to take advantage of these new free services. There are no charges. All the services are handled over the phone. When you talk to a fraud specialist, this benefit is absolutely free and will not affect your premiums. Services are also absolutely confidential and are available 24 hours a day, seven days a week.

We also offer Identity Theft Insurance. This is an optional coverage available for a minimal cost. While Identity Theft Resolution Services will help you through the entire process, insurance benefits the identity theft victim by reimbursing them for lost wages, legal fees, and other expenses. This insurance is underwritten by Chartis and is subject to the terms, conditions, and exclusions of the policy. Please refer to the policy for complete details of coverage.

We appreciate your business and look forward to the opportunity to serve your insurance needs. We want to make sure you have the help you need to meet the challenges of identity theft. If you have any questions, please do not hesitate to contact your agent with any questions about additional insurance services. For more information, please visit us at www.preferred-mutual.com/IdentityTheft911.aspx.

BULLETIN

To the Residents
705 King Street West

Dear Residents,

Re: Pharaoh Ants

As you may be aware, various units over the past 6-12 months have been treated for Pharaoh ants in 705 King Street West. The control of Pharaoh ants is difficult, due to their nesting in inaccessible areas. Treatment must be thorough and complete at all nesting sites, as well as the foraging area. Thus, treatment must include walls, ceilings, floor voids, and electrical wall outlets. Baits are now the preferred method of control for Pharaoh ants and several baits (insecticides) are labelled for indoor ant control. A Pharaoh ant infestation of a multifamily building requires treatment of the entire building to control the infestation.

At this time, we request residents to fill out the bottom of this form ASAP and forward to 705 Security or Management. If the infestation has not been controlled we will proceed with treating all the units in the building.

Yours truly,

This is an example of a version 1 6 PDF

When you create PDF files, you need to decide which PDF version to use. Generally speaking, you should use the most recent version unless there's a specific need for backward compatibility because the latest version will include all the latest features and functionality

However, if you're creating documents that will be distributed widely, consider choosing Acrobat 4.0 (PDF 1 3) or Acrobat 5 0 (PDF 1 4) to ensure that all users can view and print the document If you create files with Acrobat 5.0 compatibility or later, they may not be compatible with earlier versions of Acrobat The following table compares some of the functionality in different PDF versions

For more information and a comparison of some of the functionality in different PDF versions see the Adobe® Acrobat® Help.

SAN Zoning

In a simple SAN configuration where only 1 or 2 hosts are connected zoning is not terribly important however in more complex SANs where many hosts of different types and OSes along with tape libraries are connected zoning becomes crucial. Essentially the goal of zoning is to isolate the connected hosts from each other for security purposes. For example say you have both unix and windows hosts connected to the SAN along with a fibre channel tape library You may want your Unix Netbackup or Legato server to control the tape devices but you discover that when the windows box rebooted following a blue screen that it saw the tape drives and automatically loaded drivers for them and configured windows to use them. Next the clueless windows admin notices this and starts doing windows backups on top of your catelog tapes If you're the SAN administrator you'll probably start reading up on zoning between job interviews

SAN Types

There are 3 types of zones:

- Port Zones - These are zones where physical ports on the switch are placed into a zone
- WWN Zones - These are zones where World Wide Numbers are zoned together A typical example would be the worldwide numbers of an array controller port being zoned with the world wide number of an HBA in a host
- Mixed Zones - These zones contain at least 1 port number and 1 WWN

Important

For best security the zones should be hardware enforced and not software enforced This is often referred to as "Hard Zoning" and "Soft Zoning" The distinction is that with software enforced zoning security is based on the assumption that hosts and devices logging into the switch fabric will only rely on the fabric name server for finding devices on the SAN This is possibly a weak assumption With hardware enforced zoning a host that is not zoned to see another device on the SAN will be prevented at a hardware level from seeing the device

For newer Brocade silkworm switches, zones containing only

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it a finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero: this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully...it will automatically answer and spit out the test fax.

Problem 1.

Consider a balanced tetrahedral die with faces labeled $1, 2, 3, 4$. Let X be the random variable for the number rolled on a single toss of the die.

(a) Let Y be the random variable for the sum of the numbers rolled on two independent tosses of the die. Compute $P(Y = 5)$.

(b) Compute the probability that X is even and Y is odd.

(c) Compute the expected value of Y.

Problem 2.

Consider the probability that a randomly selected 5-card poker hand contains all cards of the same suit (a flush). Assume the deck is well-shuffled, so that each 5-card subset is equally likely.

Problem 3.

A quiz consists of two questions. There are two students, Alice and Bob, who are taking the quiz. Alice has a 90% chance of answering each question correctly, and Bob has a 50% chance of answering each question correctly. The outcomes for different questions are independent.

(a) (5 points) What is the probability that a randomly chosen student answers both questions correctly?

(b) (10 points) What is the probability that Alice scores higher than Bob on the quiz?

(c) (10 points) Given that exactly one student got both questions correct, what is the probability that it was Alice?

Problem 4.

Two players, A and B, play a game in which they take turns rolling a die. Player A rolls first, then B, then A again, and so on. The game ends as soon as one player rolls a 6; that player is declared the winner. Let X be the number of rolls made by player A, and let Y be the number of rolls made by player B. (If A rolls a 6 on the first roll, then $X = 1$ and $Y = 0$.)

(a) Determine the joint probability mass function $p(x, y) = P(X = x, Y = y)$ for all $x \geq 1$ and $y \geq 0$.

(b) Are X and Y independent? Justify your answer.

(c) Compute $P(X > Y)$.

Problem 5.

Let X be a Poisson random variable with parameter λ, and let Y be a random variable with probability mass function

$$p_Y(y) = P(Y = y) = \begin{cases} \frac{1}{2} & y = \lambda \\ \frac{1}{2} & y = 0 \\ 0 & \text{otherwise} \end{cases}$$

(a) Show that for any $\lambda > 0$, we have

$$E[XY] = \frac{\lambda^2}{2}$$

(b) Show that $\mathrm{Cov}(X, Y) = \frac{\lambda^2}{2} - \lambda^2$.

(c) Are X and Y independent? Justify your answer.

(d) Suppose that the number of customers who visit a certain shop in a day is a Poisson random variable with mean 100. Each customer who visits the shop buys a product with probability $\frac{1}{2}$, and the purchases of different customers are independent. Let Z be the number of customers who buy a product. Compute $P(Z = 100)$.

(e) Suppose that the number of customers who visit a certain shop in a day is a Poisson random variable with mean 100. Each customer who visits the shop buys a product with probability $\frac{1}{2}$, and the purchases of different customers are independent. Let Z be the number of customers who buy a product. Compute $P(Z = 100)$.

President Mills must quit - Lecturer

A political science lecturer at the Kwame Nkrumah University of Science and Technology, Kwesi Amakye Boateng, has called on President Mills to resign in order to uphold the integrity of the Office of the Presidency in the wake of the GHC51 million judgment debt scandal

The KNUST Lecturer stated that the NDC should take steps to replace President Mills to save the party ahead of the December polls.

Speaking to Adom News on Tuesday, Mr Kwesi Amakye Boateng explained that President Mills has not been able to explain to Ghanaians the reasons why his orders were not carried out to stop the payment of the judgment debt to businessman Alfred Agbesi Woyome.

According to him, President Mills should not have waited for the minority to raise these concerns before he promptly sacked ministers involved in the scandal and also directing the Economic and Organised Crimes Office (EOCO) to investigate the issue.

Amakye Boateng said if indeed the EOCO report fingered Deputy Chief of Staff Alex Segbefia and Finance Minister Kwabena Duffour to have also facilitated the payment, then there must be something wrong with the office of the President to keep the two gentlemen still at post.

He said, if the President is a beneficiary of Alfred Woyome's financial support during his campaign in the Sunyani Congress, then there is a conflict of interest which means President Mills' integrity should be questioned.

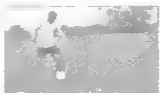
Activity 1 Pre-match Training - Teachers' Notes

OVERVIEW



In this activity the team coach invites pupils to analyse the performance of his players and their physical condition during a training session and to choose which of them should play as a striker as a mid-field player and as a defender.

There are video clips of six players each doing five training exercises which pupils can analyse and compare. There is also an on screen stopwatch a heart rate monitor and an event counter for pupils to use.

This activity has a wealth of real-life data for pupils to capture. The challenge is to decide which data is useful and how best to record and make sense of it in a way that informs their decision making. When pupils come to some conclusions, they can report back verbally to the class and in the form of a written report to the team coach.

National Curriculum Levels

This activity is aimed at those working at NC levels 4 to 5 and beyond.

Before the activity

Preview the activity and the teacher's notes and print out the necessary pupil handouts.

Organise pupil access to the software on PCs and teacher access via a digital projector and loudspeakers. There is actually sound on the training videos pupils use during the activity and while this is not vital, it adds to the realism, though pupils will need sound if they want to replay the team coach's introductory videos for themselves.

Decide which elements of the activity will be 'whole class' and how the pupils will work in small groups (suggest groups of 2-3 pupils around each computer).

During the activity

Show the class the team coach's introductory video for the whole class study.

... use mathematics to analyse the performance of my team. In these activities I want you to look at how they train, how they pass the ball and how they score goals! ...

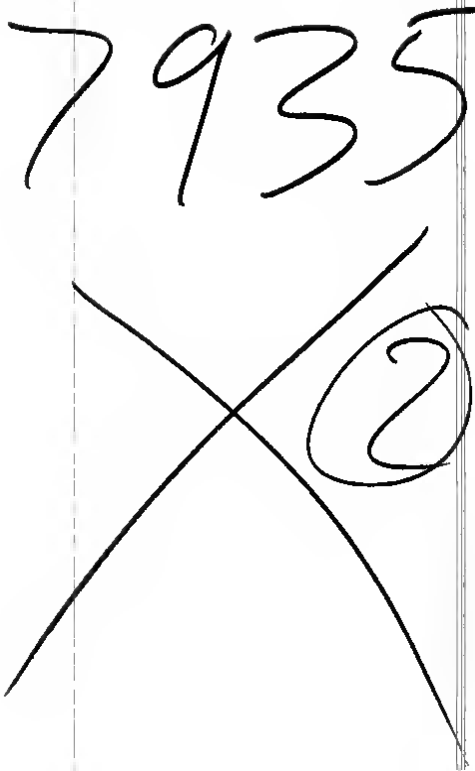
Select the 'pre-match training' activity.

Show the class the team coach's introductory video for the activity.

Pre-match training is very important ... mid-field players or defenders, need different skills and abilities. What I see on the training pitch helps me ... play. Today I want you to watch video clips of my players during different training activities and analyse their performance, such as their speed, their stamina and their accuracy. Then I want ... player with your recommendations of who should play in what position in the team.

Start pupils working on the activity and provide support to groups and individuals.

Organise the whole class plenary for pupils to evaluate and feedback on their work at the end of the activity.



e invite you to join our dental family. Life can be complicated and a majority of people struggle coming to the dental office. Many times our personal experiences, as either children or adults, or hearing the experiences of others can impede our future behavior of taking care of our teeth. Sadly, as visits are continually postponed the condition continues to get worse thus increasing our fear of treatment and the unknown.

It is our goal at Camino Al Norte Dental to make every patient feel welcome, comfortable, and part of the family. We offer a warm, friendly atmosphere where we can focus on your needs. We are excited to meet you and help you overcome your hesitancy and restore your full oral health.

REPLACE MISSING TEETH

PREVENTATIVE CARE

With at least twice yearly dental care appointments we can help you to properly maintain your oral health. These visits include dental cleanings to remove tartar as well as screenings for periodontal disease, tooth decay, and oral cancer.

Teeth Cleaning — Having your teeth cleaned on a regular basis, generally twice a year helps keep your gums healthy and minimizes the likelihood you will keep your teeth your entire life.

Digital X-Rays — Instead of using a conventional film which can be uncomfortable, we use a computer sensor which puts the x-ray picture directly into the computer. And used less radiation!

Gum Disease — If there is evidence of periodontal pockets or gum recession, it can be minimized before the infection has the opportunity to create further damage.

RESTORATIVE TREATMENTS

Our office offers the latest in restorative treatments and technologies to help restore your smile. Our restorative solutions include fillings, crowns, bridges, implants, root canal treatment and dentures.

Composite Fillings — Today's composite fillings, or resin fillings, are shaped and shaded to match your natural teeth. Composite fillings restore metal or mercury and meld perfectly with your remaining tooth structure.

Fixed Bridges — A bridge consists of a grouping of dental crowns used to replace a missing tooth. A three unit bridge for example, is composed of three crown units which are bonded together in a row.

Root Canal Therapy — Root canals are dental procedures which treat the pulp of your tooth when the nerve is infected or abscessed. We provide root canal therapy to restore and maintain the health of your teeth.

Dentures — Full or Partial Dentures can be used to replace teeth after they have been removed.

Implants — An implant is a small metal rod that can be used to replace a single missing tooth or attach to a denture to help make it more stable.

Thank you for selecting this monitor

Please see the *User's Guide* in the *Software and Warranty* CD included with your monitor for detailed instructions on setting up your monitor and for optimizing performance.

To get the best performance from your monitor:

Install the most up-to-date Windows operating system if it is not already installed. The video driver will use the *Software Refresh Rate* (SRR) feature with this monitor, so you can download the latest driver from the following Internet support Web site: www.hp.com/support.

Adjust the display resolution and refresh rate settings in your computer's operating system as follows:

- For 15" monitors: 1024 × 768 @ 60 Hz refresh rate
- For 17" monitors: 1280 × 1024 @ 60 Hz refresh rate and 32-bit color depth or greater
- For 21" monitors: 1600 × 1200 @ 60 Hz refresh rate and 24-bit color depth or greater
- For 23" monitors: 1920 × 1080 @ 60 Hz refresh rate and 24-bit color depth or greater

Once the monitor is operating properly, run the Auto-Adjustment Pattern utility located on the *Software and Reference Guide* CD and press the Auto button. For additional display tweaking, the Clock and Phase controls in the OSD menu can be adjusted with the *User's Guide*.

IMPORTANT: For optimal color performance, it is recommended that all of the graphics and video cards in the computer be set to support a 24-bit color setting (also called true color). Setting the display to a color depth of 16 bits (also called high color) may cause inferior color performance, such as color banding, in photos and graphics.

Welcome to

Windows® Fax and Scan

One place to scan and fax your documents

FAX You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan**.

3. On the toolbar, click **New Scan**.

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

Psalm-like 7:10 as strikingly similar to Rev. 20:11–15 as we have interpreted. It refers to the destruction of the old world and the creation of the new world at the time of the resurrection of the righteous *and* unrighteous dead, when "Hell will pay back its debt and the place of perdition return to deposit as that it may render to each according to his works . . . and death will be thrilled to and Hell will shut its mouth . . ."

21:1–22:5: The New Creation and the Church Perfected in Glory

21:1–8 concludes the last part of the sixth major segment of the whole book. The first verse of ch. 21 presumably follows on the heels of 20:11, where it is said that "heaven and earth fled away from the presence [of God], and no place was found for them." Whereas in 20:12–15 judgment follows cosmic destruction, in 21:1ff. a new creation follows the prior cosmic dissolution in order to replace the old order. The theme of the new creation dominates ch. 21 though the preceding idea of judgment is not altogether forgotten (vv. 8, 27).

21:9–22:5 is the last and seventh major segment of the book. It primarily recapitulates (21:1–8, and 21:1–8 anticipates). The past five segments (beginning with ch. 6) have focused on aspects of the past, the present, and the "inner" and at least by the seventh subsection of each segment the final judgment by Christ as Christ's triumph is narrated. The purpose of this last major segment is to highlight the contrast between the church imperfect (chs. 2–3) and the church perfected. Whereas chs. 2–3 focus on the churches' weaknesses throughout the old age, here John foresees the church in its perfected eternal state. The vision here also contrasts the new Jerusalem with tragedy Babylon. The purpose of the contrasts with the sins of the church and with Babylon, and the ultimate purpose of the entire segment, is to exhort believers in the present to persevere through tribulation to consummation so that they may participate in the consummated glory of the church.

IN THE NEW CREATION THE FAITHFUL WILL EXPERIENCE THE SALVATION BLESSING OF INTIMATE COMMUNION WITH GOD, BUT THE UNFAITHFUL WILL BE EXCLUDED FROM THIS BLESSING (21:1–8)

1 The first thing John sees is "a new heaven and a new earth." The reason (γάρ) that he sees a new cosmos is because "the first heaven and the first earth passed away." Because the first creation has been dissolved the second has been established to take its place.

Influenza (Flu) Vaccine (Inactivated or Recombinant): *What you need to know*

Many Vaccine Information Statements are available in Spanish and other languages. See www.immunize.org/vis

Hojas de información sobre vacunas están disponibles en español y en muchos otros idiomas. Visite www.immunize.org/vis

1 Why get vaccinated?

Influenza ("flu") is a contagious disease that spreads around the United States every year, usually between October and May.

Flu is caused by influenza viruses, and is spread mainly by coughing, sneezing, and close contact.

Anyone can get flu. Flu strikes suddenly and can last several days. Symptoms vary by age, but can include

- fever/chills
- sore throat
- muscle aches
- fatigue
- cough
- headache
- runny or stuffy nose

Flu can also lead to pneumonia and blood infections, and cause diarrhea and seizures in children. If you have a medical condition, such as heart or lung disease, flu can make it worse.

Flu is more dangerous for some people. Infants and young children, people 65 years of age and older, pregnant women, and people with certain health conditions or a weakened immune system are at greatest risk.

Each year **thousands** of **people in the United States die from flu, and** many more are hospitalized.

Flu vaccine can

- keep you from getting flu,
- make flu less severe if you do get it, and
- keep you from spreading flu to your family and other people.

2 Inactivated and recombinant flu vaccines

A dose of flu vaccine is recommended every flu season. Children 6 months through 8 years of age may need two doses during the same flu season. Everyone else needs only one dose each flu season.

Some inactivated flu vaccines contain a very small amount of a mercury-based preservative called thimerosal. Studies have not shown thimerosal in vaccines to be harmful, but flu vaccines that do not contain thimerosal are available.

There is no live flu virus in flu shots. **They cannot cause the flu.**

There are many flu viruses, and they are always changing. Each year a new flu vaccine is made to protect against three or four viruses that are likely to cause disease in the upcoming flu season. But even when flu vaccine doesn't exactly match these viruses, it may still provide some protection.

Flu vaccine cannot prevent:

- flu that is caused by a virus not covered by the vaccine, or
- illnesses that look like flu but are not.

It takes about 2 weeks for protection to develop after vaccination, and protection lasts through the flu season.

3 Some people should not get this vaccine

Tell the person who is giving you the vaccine:

- **If you have any severe, life-threatening allergies.** If you ever had a life-threatening allergic reaction after a dose of flu vaccine, or have a severe allergy to any part of this vaccine, you may be advised not to get vaccinated. Most, but not all, types of flu vaccine contain a small amount of egg protein.
- **If you ever had Guillain-Barré Syndrome (also called GBS).** Some people with a history of GBS should not get this vaccine. This should be discussed with your doctor.
- **If you are not feeling well.** It is usually okay to get flu vaccine when you have a mild illness, but you might be asked to come back when you feel better.

Факсы и сканеры Windows*

Факсы и сканеры Windows позволяют отправлять и получать факсы, а также сканировать документы и изображения.

ФАКСЫ. Для отправки и получения факсов необходимо подключить к компьютеру факс-модем или факс-сервер. Можно также использовать факс, установленный на удаленном компьютере в сети. Для отправки факса с помощью факс-модема:

1. Подключите компьютер к телефонной линии.

   Если ваш компьютер оборудован внешним модемом, с помощью телефонного кабеля подключите его к телефонной линии и компьютеру.

2. Нажмите кнопку **Пуск** и выберите команду **Факсы и сканеры Windows**.

3. Следуйте указаниям мастера установки для подключения факс-модема. После завершения настройки нажмите кнопку **Факс**.

Чтобы подключиться к серверу факсов, нажмите кнопку **Обратиться к устройствам**, а затем выберите **Использовать факс-сервер**. Затем щелкните **Обзор** и выберите нужный факс-сервер.

СКАНИРОВАНИЕ. После добавления сканера на компьютер вы можете просматривать документы и изображения до сканирования, настроить параметры сканирования, получить изображение, сохранить его и отправить по факсу или по электронной почте.

Чтобы отправить факс:

1. Убедитесь, что компьютер, факс-модем или телефонная линия подключены к сети.

2. В меню **Факсы и сканеры Windows** выберите команду **Новый факс**.

3. Нажмите кнопку **Обратиться к получателю** и выберите **Новое подключение**.

4. Выберите нужное устройство и нажмите кнопку **Далее**.

Чтобы добавить получателя, выберите его из списка или введите номер факса вручную. Для этого можно также использовать адресную книгу. Для добавления получателя из адресной книги нажмите кнопку **Обзор**. Выберите нужного получателя.

Faxing with VoIP Services

Introduction

Voice over IP (VoIP) services provide normal telephone service (usually long distance) through a broadband internet connection rather than the standard telephone network. These services use packets to store and forward the voice signal on a speed line and transmit it digitally to the receiver where the packets are reassembled.

Because HP fax products are designed to work with ordinary analog speed service, HP cannot guarantee that the HP fax product will work with a VoIP service.

Faxing with VoIP services

These services are often not compatible with fax machines unless the provider explicitly states they support fax over IP services.

Although a fax may sometimes work on a VoIP network, it may fail for the following reasons:

- Fax transmissions are sensitive to the timing of signals
- There is a slight delay in the signal because of the time it takes to create the internet packets.
- Internet Voice transmit heavy and packets are lost which then have to be recovered.
- Heavy Internet traffic also increases latency (the time it takes for a packet to travel from its point of origin to its point of destination) which then exceeds timing requirements.

How to dial Fax codes when faxing

When sending a fax, it may be necessary to enter in a fax code as the first part of the number. Follow the steps below to dial 789 when using a VoIP service.

NOTE: Because the ... mode is an international mode in the phone system, this must be dialed as

1. To pick up the receiver on the HP All-in-One, press the Start Fax or Black Copies button without entering a phone number first.
2. When you hear fax dial tone, enter in the 789 code.
3. Wait a few seconds and then dial in the rest of the number.
4. The HP All-in-One will complete the fax as normal.

What can be done to help the fax transmission?

The communication speed is a major factor in fax transmission over VoIP. Currently there are three speed standards.

- Fast - v.34 which communicates at 33.6 Kbps.
- Medium - v.17 which communicates at 14.4 Kbps
- Slow - v.29 which communicates at 9.6 Kbps

Changing the Fax speed Adjustment setting to Medium may improve your ability to send a fax over a VoIP network. On most HP fax products the connection speed can be set to a lower speed. Those that do not have a Fax Speed setting generally communicate at medium speed or lower as this was the past standard. Consult your user's manual for information specific to your model.

Changing the Fax Speed Adjustment to a lower speed

Follow the steps below:

1. Press Setup
2. Select Advanced Fax Setup

Dear Tess,

Thank you for choosing the Center for Holistic and Integrative Medicine (Chi-Medicine). Your appointment with Dr. Penner is currently scheduled for

Chi-Medicine offers a patient-centered approach that begins with your health concerns and goals. It is imperative to complete the medical intake forms prior to your initial appointment at Chi-Medicine in order to ensure a comprehensive initial meeting with the doctor. Completing these forms will give you a chance to contemplate your medical issues and family history.

In preparation for your visit, please fax/submit doctors reports, meds, xrays etc that you have done recently or that you think will be pertinent to Drs assessment of you to 201.368.8327. They can also be emailed to assistant@chi-medicine.com.

Our patient portal is one of the most important tools that you will have going forward. Through the portal you will be able to access all of your intake forms, as well as lab results, notes from the Dr. regarding your health/labs, your medication lists, upcoming appts, and much more. You should have received an email from eclinical with the link to the patient portal as well as your user name and temporary password. In the event that you missed this email, here is the link again. In most cases, the user id is your complete email address and the temporary password is chimed01. Both are case sensitive.

https://secure62.eclinicalweb.com/portal703/jsp/100mp/login.jsp

Upon receipt of this notice, please log in to your patient portal and complete the intake forms. Be sure the fill out the F-E CURRENT MEDICATIONS form (located in the tab right next to the intake forms tab) as well as the surgical history forms which are located in the band running down the left hand side of your screen under "Questionnaires". Submit at the end of each form.

You are now ready for your initial appointment.

Please feel free to contact the office with any questions or concerns.

Be well,

GERARDO REYES TUMBA OLVIDADA

Una tumba esta olvidada
En el panteón de mi pueblo
Donde descansan los restos
Del que la vida me diera

Una cruz ya destrozada
por el tiempo encima de ella
La tristeza me acobarda
Cada ves, que la visito

Y abrazado de esa tumba
lloro y rezo como un niño
cuando ya no tiene apoyo
De su padre que ha perdido.

La herencia que me dejara
Fue el tesoro más preciado
El orgullo de ser su hijo
Mi viejo como te extraño

Por doquiera que yo voy
pregono quien fue mi padre
Hombre sencillo y cabal
Mis venas llevan su sangre.

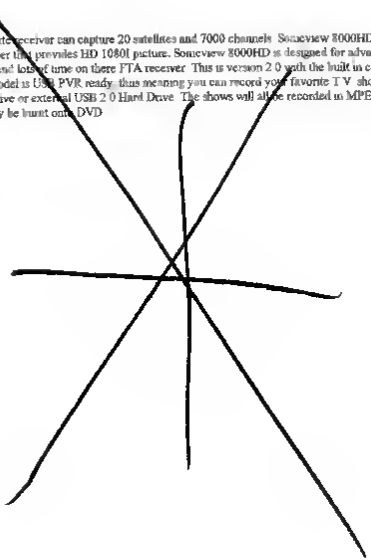
This free to air satellite receiver can capture 20 satellites and 7000 channels Sonicview 8000HD has a sharp NIM video tuner that provides HD 1080I picture. Sonicview 8000HD is designed for advanced users that love to spend lots of time on there FTA receiver This is version 2 0 with the built in cooling fan. This new HD model is USB PVR ready, thus meaning you can record your favorite T V shows onto a USB Flash Drive or external USB 2 0 Hard Drive The shows will all be recorded in MPEG format and can easily be burnt onto DVD



Here is a table that shows the correspondence between the sources and sinks of information (that is, where the data physically comes from or goes to) in the old and new libraries:

Sources & Sinks: Java 1.0 class	Corresponding Java 1.1 class
InputStream	**Reader** converter: **InputStreamReader**
OutputStream	**Writer** converter: **OutputStreamWriter**
FileInputStream	**FileReader**
FileOutputStream	**FileWriter**
StringBufferInputStream (deprecated)	**StringReader**
(no corresponding class)	**StringWriter**
ByteArrayInputStream	**CharArrayReader**
ByteArrayOutputStream	**CharArrayWriter**
PipedInputStream	**PipedReader**
PipedOutputStream	**PipedWriter**

In general, you'll find that the interfaces in the old library components and the new ones are similar if not identical.

Modifying stream behavior

In Java 1.0 streams were adapted for particular needs using "decorator" subclasses of **FilterInputStream** and **FilterOutputStream**. Java 1.1 IO streams continues the use of this idea, but the model of deriving all of the decorators from the same "filter" base class is not followed. This can make it a bit confusing if you're trying to understand it by looking at the class hierarchy.

In the following table, the correspondence is a rougher approximation than in the previous table. The difference is because of the class organization: while **BufferedOutputStream** is a subclass of **FilterOutputStream**, **BufferedWriter** is *not* a subclass of **FilterWriter** (which, even though it is **abstract** has no subclasses and so appears to have been put in rather as a placeholder or simply so you wouldn't wonder where it was). However, the interfaces to the classes are quite a close match, and it's apparent that you're supposed to use the new versions instead of the old (if you can, that is: there are cases where you're forced to produce a **Stream** instead of a **Reader** or **Writer**).

Filters: Java 1.0 class	Corresponding Java 1.1 class
FilterInputStream	**FilterReader**
FilterOutputStream	**FilterWriter** (abstract class with no subclasses)
BufferedInputStream	**BufferedReader** (also has **readLine()**)
BufferedOutputStream	**BufferedWriter**
DataInputStream	use **DataInputStream** (Except when you need to use **readLine()**, when you should use a **BufferedReader**)
PrintStream	**PrintWriter**
LineNumberInputStream	**LineNumberReader**

Kroger raises $3.2 million for USO in 2013

November 12 2013

http://www produceuews.com/news-dep menu/test featured/11683 kroger raises 3-2 million for uso-in-2013

The Kroger Co contributed $3 2 million to the USO in 2013 The funds were raised through the company's Honoring Our Heroes sales event in May and customer contributions collected at check stands through the summer and fall

"Kroger is honored and privileged to support our service men and women through our partnership with the USO " said Lynn Marmer Kroger's group vice president for corporate affairs "And we are humbled by the generosity our customers have shown through their participation in Kroger's Honoring Our Heroes campaign and by donating spare change or rounding up their purchases at cash registers "

The Kroger family of stores..in partnership with customers, associates and vendors has donated a total of $8 4 million to the USO since 2010

All of the funds raised support the broad range of programs and services the USO provides to service members then families wounded ill and injured troops, and veterans A private, nonprofit organization the USO provides programs services and entertainment events to enhance the quality of life for America's military personnel and their families wherever they serve.

Kroger is also committed to hiring veterans Since 2009 more than 21,200 veterans have joined the company Last year Kroger joined more than 90 other companies in the "100 000 Jobs Mission " The program has a collective goal of hiring more than 100 000 transitioning service members and military veterans by 2020

Kroger also makes it easy to support the troops online. By visiting www honoringourheroes.com customers can volunteer with the USO, make a donation or write a note to a service member

This is just too funny all these people thinking that entering a comment will test their fax!! It's like a combined ignorance of faxing and blogging. No telephone number is involved!! But somehow – OUT THERE the internet connects all things and so I know that it will find its way to my home fax machine! Yes!!! It's kind of an endearing faith in technology that unfortunately has a sad ending when the fax never arrives:(... let down again.....

[illegible]

Fax: You can send and receive faxes using your computer and a fax modem or an external fax device. You can also print received faxes.

To get started

1. Connect a modem or fax device to your computer.

   If you are using a modem, make sure it is connected to a working telephone line and then connect the other end of the cable to your modem.

2. On the taskbar, click **New Fax**.

3. Notify the recipient of the fax that you are ready to send a fax. If the recipient is using a fax machine, then you will need to know the fax number.

To receive a fax, you must first set up a fax modem. You can also use a fax device instead. Here are the steps. Click the Help button on the toolbar.

SCAN: After you add a scanner to your computer, you can scan your documents or pictures before you open them. You might want to adjust your scan settings for better results. You can also fax or e-mail scanned files in common file formats.

To scan a picture

1. [illegible] your scanner is connected to your computer and that the scanner is turned on. Then place a document or picture in the scanner.

2. In the [illegible], click **New Scan**.

3. Make the scan settings you want, and then click **Scan**.

For more information about faxing and scanning, click the Help button on the toolbar.

Sex In The Park

Ole was walking home late at night, through the park, and sees a woman in the shadows.

"Twenty dollars," she whispers.

Ole had never been with a hooker before but decides, as it's only twenty bucks, he can't afford to miss out.

So they go into the bushes.

They're going "at it" for a minute when all of a sudden a light flashes on them - it's a police officer.

"What's going on here, people?" asks the officer.

"I'm making luff to my vife, Lena," Ole answers indignantly.

"Oh, I'm sorry," says the cop. "I didn't know."

"Vell," says Ole, "I didn't neder, 'til you shine dat light in her face."

PRESIDENT

On Your Side, Every Step of the Way

Dr. Dean Ornish, writing for *Newsweek* magazine late last year said something that really struck me. "Suffering," he said, "can be a powerful catalyst for transforming our lives for the better." Boy, don't I know it!

Even with today's difficult economy REALTORS® remain remarkably optimistic—yet I know many of you are suffering, and your clients are suffering.

The changes would encourage broader use of the program by making it more lender-friendly while retaining benefits for home owners. Separately we're working to extend and improve the homebuyer tax credit so that it provides a real affordability boost.

Our work in Congress is never finished. We're always looking for ways to stabilize and revitalize real estate markets, and we need your help. Keep us informed about the challenges you're facing and

Let little Debbie show you how to display the flag!

Firewood should be dried as much as possible before burning. Properly seasoned firewood has about 7,700 BTU maximum usable energy per pound versus only about 5,000 BTU available from green firewood. For best results, season or air-dry firewood for at least six to eight months after cutting. This should bring the moisture content down to 15 to 20% by weight. The best time to cut firewood is during the winter or early spring before the sap runs. If the tree is felled when fully leafed out, let it lie until leaves have become crisp to allow leaves to draw out as much moisture as possible from the tree before further cutting.

Drying time is greatly reduced if wood is cut into firewood length and split, especially pieces larger than 6 inches in diameter. Splitting is easiest when firewood is frozen or green and should be done before firewood is stacked. Firewood must be properly stacked for satisfactory drying. The greater the surface area exposed to air, the more rapid the drying. Therefore, stack wood loosely and keep it off moist ground. The stack should be located in an open area for good air circulation--avoid stacking in firewood lots for seasoning.

Store firewood outdoors, under partial or full protection from the elements, and no closer than 25 feet from the house. Keep area around firewood clear of weeds, leaves, debris, etc., to discourage rodents, snakes, insects, and other unwanted pests from making their home in the stacked firewood. Avoid storing large quantities in the house, warm garage or basement because the heat will activate insect and fungi or spore activity and bring about hatching of any insect eggs in or on the firewood.

Buckwheat Zydeco

From Wikipedia, the free encyclopedia

Buckwheat Zydeco is the stage name of **Stanley Dural, Jr** (born November 14, 1947) an American accordionist and zydeco musician. He is one of the few zydeco artists to achieve mainstream success. His music group is formally billed as **Buckwheat Zydeco and His Son Partis Band**, but often they perform as merely *Buckwheat Zydeco*.

The *New York Times* says "Stanley 'Buckwheat' Dural leads one of the best high-powered celebration, meaty and muscular with a fine tuned sense of dynamics, propulsive rhythms, incendiary performances."[1] *USA Today* calls him "a zydeco trailblazer."[2]

Buckwheat Zydeco has performed with a large number of famous musicians from Eric Clapton (with whom Buckwheat also recorded) and U2 to The Boston Pops. The band performed at the closing ceremonies of the 1996 Summer Olympics to a worldwide audience of three billion people. Buckwheat performed for President Clinton's inaugurations. The band has appeared on the *Late Show with David Letterman*, *CNN*, *The Today Show*, *MTV*, *NBC News*, *CBS Morning News*, National Public Radio's *Weekend Edition*.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax.Zoy — it's a fax web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to Fax.Zoy; find the fax you sent faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Troubleshooting Steps

Some of the items listed below may help you resolve common faxing issues.

- Switch off the modem and all analog phone adapters from devices and then unplug them from the wall outlet. Leave the devices unplugged for 60 seconds.
- Try calling another fax machine and see if you can send a fax to that number.
- Check the wiring between the modem and the wall jack.
- Connect the fax machine directly to the Vonage device, bypassing any home wiring.
- If you are using a cordless phone, connect the fax machine directly to the ATA.

Further Assistance

If you need further assistance faxing, visit the Vonage Fax Community at http://www.vonage.com/fax and talk to other Vonage users.

Call us at 1-800-VONAGE1 (1-800-866-2431) or visit www.vonage.com.

Testing Your HP Fax Machine with the HP Fax Test Service

Contact HP

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service. Print the document for easy reference by clicking the **Printable Version** link in the upper right corner of the page.

Test your fax machine

To test the capability of your fax machine, follow the directions below.

NOTE: Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent your from receiving a fax, including voice mail, call blocking, or call privacy features.

NOTE: Whenever troubleshooting a fax issue, it is good practice to set the Automatic Reports option to **Every Error** before attempting a test fax. This way, even if the sent fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products, consult the product User's Guide for specific steps.

1. Send a one page black and white test fax to **1-888-hpfaxme** (1-888-473-2963).
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE: The most common cause of failure is that the fax number set in the FaxHeader on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full, 10-digit telephone number of the fax machine, including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

EPSON
EXCEED YOUR VISION

Congratulations, you have successfully installed your new EPSON printer!

Here are some tips for getting great prints

- Genuine EPSON inks have been engineered to deliver stable, long-lasting photographic quality when used with EPSON papers.
- To protect your photos, frame them under glass or store them in archival sleeves or albums. Your prints will last for generations!
- Epson offers an extensive line of specialty papers that provide outstanding results when used with EPSON printers and genuine EPSON ink.
- For best results, make sure the paper type selected in your printer software is right for the type of paper loaded in the printer. See your documentation for more information.

GOOBS

DO NOT TEXT AND DRIVE

1.6 MILLION CRASHES ANNUALLY ARE CAUSED BY CELL PHONE CONVERSATIONS, 200,000 ALONE ARE BLAMED ON TEXTING

THE POSSIBILITY OF AN ACCIDENT RISES BY 23 TIMES WHEN CELL PHONES ARE INVOLVED

-50% OF TEENAGERS ADMIT TO TEXTING WHILE DRIVING

-28% OF CAR CRASHES OR 1.6 MILLION ACCIDENTS PER YEAR ARE CAUSED BY DRIVERS TEXTING AT THE WHEEL

-21 STATES IN THE U.S HAVE BANNED THIS ACTIVITY WHEREAS OTHER STATES HAVE CERTAIN LAWS ACCORDING TO THE TYPE OF DRIVERS

LAST YEAR NEARLY 6,000 FATALITIES OCCURRED AND A HALF MILLION INJURIES WERE CAUSED BY DISTRACTED DRIVERS

-WRITING AND/OR READING TEXT MESSAGES REDUCES EMERGENCY REPONSE TIME BY 35%

-CELL PHONE USAGE IS MORE DANGEROUS THAN DRIVING UNDER THE INFLUENCE OF ALCOHOL OR MARIJUANA

-MOST ACCIDENTS CAN TAKE PLACE IN 2-3 SECONDS AND STATISTICS SHOW THAT TEXTING KEEPS DRIVERS INVOLVED FOR 5 SECONDS

-TEXTING IS MORE DANGEROUS THAN TALKING ON THE PHONE

THESE STATISTICS ABOVE ARE VERY SERIOUS, IF YOU SHOULD NEED TO SEND OR ARE EXPECTING AN IMPORTANT TEXT MESSAGE WHILE BEHIND THE WHEEL PLEASE PULL THE CAR TO THE SIDE OF THE ROAD. REMEMBER DISTRACTIONS WHILE DRIVING MAY REQUIRE YOU PAY A ROAD SAFETY VIOLATION FINE OR EVEN COST YOU YOUR LIFE. WE WANT EACH AND EVERY PERSON TO STAY SAFE IN THEIR DAILY TRAVELS.

HP Fax Products - Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service.

Print this document for easy reference by clicking the Printable Version link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below.

NOTE:

Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Prefixing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Either phone company services can prevent your fax from sending a fax, including voice mail, call blocking, or call privacy features.

NOTE:

Whenever troubleshooting a fax issue, it is good practice to set the *Automatic Reports* option to *Every Error* before attempting a test fax. This way, even if the send fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products, consult the product *User's Guide* for specific steps.

1. Send a one page black and white test fax to 1-888-hpfaxme (1-888-473-2963).
2. When your fax is received by the HP Test Fax Service, we will generate a return fax to you within five minutes confirming that we received your fax. This verifies that you can both send and receive a fax with your fax machine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE:

The most common cause of failure is that the fax number set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax Header contains the full 10-digit telephone number of the fax machine, including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

Latch Jumper

This jumper determines the relay operation. In "Latch" mode (default), the relay activates for the duration of the main relay timer setting whenever someone is detected.

In "retrive" mode (jumper removed), the relay stays on only as long as there is activity in the detection zone, but up to a maximum time equalto the main relay timer setting.

Lock Control Relay (LT2 and XL2 only)

The lock control relay is a normally closed solid state relay which deactivates (open contact) for a fixed time of 2 seconds, 50 ms after a detection. This time period cannot be modified

Arbitration - Clause

The agreement contains a pre-dispute arbitration clause. By signing an arbitration agreement the parties agree as follows:

A. Arbitration is final and binding on the parties. All parties to this agreement are giving up the right to sue each other in court, including the right to a trial by jury, except as provided by the rules of the arbitration forum in which a claim is filed.

B. The parties are waiving the right to seek remedies in court, including the right to a jury trial. Arbitrator awards are generally final and binding, a party's ability to have a court reverse or modify an arbitrator award is very limited.

C. Pre-arbitration discovery is generally more limited than and different from a court proceeding. The ability of the parties to obtain documents, witness statements, and other discovery is generally more limited in arbitration than in court proceedings.

D. The arbitrators award is not required to include factual findings or legal reasoning and any parties right to appeal or seek modification of rulings is greatly limited. The arbitrators do not have to explain the reason(s) for their award.

E. The panel of arbitrators will typically include a minority of arbitrators who were or are affiliated with the securities industry.

F. The rules of some arbitration forums may impose time limits for bringing a claim in arbitration. In some cases, a claim that is too late to be brought in arbitration may be brought in court.

G. The rules of the arbitration forum in which the claim is filed, and any amendments thereto, shall be incorporated into this agreement.

No person shall bring a putative or certified class action to arbitration, nor seek to enforce any pre-dispute arbitration agreement against any person who has initiated in court a putative class action or who is a member of a putative class who has not opted out of the class with respect to any claims encompassed by the putative class action until: (i) the class certification is denied or (ii) the class is decertified, or (iii) the customer is excluded from the class by the court. Such forbearance to enforce an agreement to arbitrate shall not constitute a waiver of any rights under this agreement except to the extent stated herein.

Agreement to Arbitrate Controversies

It is agreed that any controversy between us arising out of your business or this agreement shall be settled by arbitration in accordance with the Secure as Arbitration Rules then in effect with the Financial Industry Regulatory Authority. Arbitration must be commenced by service upon the other party of a written demand for arbitration or a written notice of intention to arbitrate therein electing the Arbitration Tribunal. In the event the undersigned does not make such election within five (5) days of such demand or notice, then the undersigned authorizes you to do so on behalf of the undersigned.

Agreement to Notify Sigma Financial Corporation of any Account Statement Discrepancies

The undersigned agrees to review all confirmations, statements, and any other written communications sent to the customer on a timely basis. It is further agreed that the undersigned shall promptly notify Sigma Financial Corporation of any discrepancies or such confirmations and statements. The customer acknowledges that prompt notification of any discrepancies or other miscommunication issues is vital in order for Sigma Financial Corporation to correct such items. Customers should open any discrepancies to the Sigma Financial Corporation Compliance Department, which can be reached at (888) 744-8284, or in writing to Sigma Financial Corporation, Compliance Department, 300 Parkland Plaza Ann Arbor MI 48103.

General Information

The Osteoporosis Society of Canada recommends that BMD be performed at least once in all patients aged 65 and over in addition to other potential indications in younger patients

The International Society for Clinical Densitometry recommends that follow up BMD studies be performed on the same machine at the same centre as the previous study for maximum sensitivity and accuracy in assessing change

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it just to make sure it works. How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1 855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

Selected FAQ

Q: I'm having trouble sending or receiving faxes. What should I do?
A: If you cannot send or receive faxes, try these solutions:

- Make sure the recipient's fax machine is turned on and working.
- Make sure paper is loaded correctly in your product.
- Make sure Auto Answer mode is turned on to receive faxes automatically. Check your product control panel to see if fax mode is turned on.
- Check that the cable connecting your answering machine jack to your product's **LINE** port is secure.
- Print a fax connection report using your product control panel or fax software to help diagnose the problem.
- Verify that the telephone wall jack works by connecting a phone to it and testing it.
- If you connected your product to a DSL phone line, you must connect a DSL filter to the phone jack to enable faxing over the line. Contact your DSL provider for the necessary filter.
- If your telephone line has static, turn off your product's **V.34** and error correction mode fax communication settings and try faxing again.
- Try lowering your product's fax speed setting.
- Make sure the error correction mode setting is turned on if you are trying to send or receive a color fax.

Note: If your product is connected to a VoIP (Voice over Internet Protocol) phone line, keep in mind that fax machines are designed to work over a analog phone lines. Epson cannot guarantee that fax transmission will work when using VoIP.

If your phone line includes voice mail answering services, calls to faxes may be inadvertently received by your voice mail service.

Remodeling Project Management

Business Overview

Turn your knowledge of construction and home renovation into big bucks by starting a remodeling project-management service focused on helping clients to manage their home, office or store renovations, but especially in the red-hot residential home improvement industry. Regardless of whether a homeowner wants a full-scale renovation job or just a specific contractor, it helps to perform the work. A successful remodeling project-management service can save thousands of dollars, as well as countless hours of time and aggravation. A contractor is involved as a supplier who are hired. This is especially true for homeowners doing their own work. What tasks do they need and where do they get them? In what order is the job completed? And the grandmaddy of them all: How much will the entire project cost, including contract extra charges to deal with unforeseen circumstances? These are common questions. All project managers answer along with attending to other duties such as contacting and screening contract trades, establishing budgets, signing on or materials and labor and keeping the project on-time and on-budget. Remuneration is by way of a flat pre-agreed fee to oversee the entire project or portions of the project, or by using a percentage, such as 15 percent of the total project value.

Cotton (Texas) Root Rot

Cooperative Extension, College of Agriculture & Life Sciences, The University of Arizona

Written by
Mary Olsen, *Plant Pathology Specialist*

At a Glance:

- Cotton Root Rot commonly causes a sudden wilt and death of susceptible plants in summer months but may also cause a slow decline, especially at cooler temperatures.
- Positive identification of disease by an experienced person is essential.
- Replant infested soils only with tolerant or immune plants

Pathogen

Soil borne fungus, *Phymatotrichopsis omnivora (= Phymatotrichum omnivorum)*

Host

Many dicotyledonous trees and shrubs.

Symptoms/signs

Cotton (Texas) Root Rot often causes a rapid wilt and death of the host in the late spring, summer and early fall when temperatures are warm. Dead and dying leaves remain attached to the plant. However, infected plants also may decline more slowly, especially at cooler temperatures and when plants are well cared for. The roots of dying or declining plants are rotted. With careful examination under at least 10X magnification, light brown strands or hyphal webs of the fungus can be observed on the root surface. With sufficient moisture the fungus may occasionally produce a white to light tan sterile spore mat on the surface of the soil near the host, but these mats are not common

Environmental conditions

Rapid wilting and death occurs in hot weather due to the inability of the host plant to take up enough water through its rotted roots. Thus, Cotton Root Rot is usually considered a warm weather disease. However, host plants, especially mature trees, may have been infected for some time and die rapidly in warm weather as transpirational demand for water increases.

Disease

Cotton Root Rot occurs throughout the southwestern United States and Mexico. It is easily recognized in infested cotton fields in late summer by large areas of dead plants, hence its

An Analysis of the Impact of CareCredit® on Patients' Use of Dental Services

Executive Summary

Having a CareCredit patient financing option available can help dental practices attract new patients and increase the number of visits and services accepted by existing patients. Equally important, households that opened a CareCredit account, the increased level of dental services was sustained. The intervention was validated and approved by the Academy of Dental CPAs (www.ADCPA.org) was obtained from analysis of data of more than 1 million households across a 6-year period, examining how dental patients in the U.S. use dental services over time.

Key Findings

In the year in which the account is opened CareCredit account holding households

- Make 66% more dental visits
- Accept 282% more dental services (as measured in dollar value)

In the four years after the account is opened CareCredit account holding households on average

- Make 25% more dental visits per year
- Accepted 44% more dental services per year

Number of Visits per Household	**+62%**	**+25%**
Amount of Dental Services Accepted	**+282%**	**+44%**

Specifically, in a certain year, a group of 1,000 households that opened a CareCredit account would potentially make 2,300 visits on average and spend approximately $2.3 million more in that year than a group of 1,000 non-account holding households. Furthermore, in any given year afterward, the same group of CareCredit account holders would make 900 more visits and spend $382,000 more than 1,000 of their non-account holding counterparts.

These findings help demonstrate how CareCredit can help dental practices grow by driving greater patient production and more appointments scheduled.

For a full report, visit carecredit.com

For more information, the ADCPA organization, please visit www.adcpa.org. Founded in 1963, the Academy of Dental CPAs, ADCPA, now serves over 7,000 dentists nationwide.

Our members help dental practices of every size, specialty, and geographic area, in more than 25,000 practices nationwide, helping more than 6 million patients get the care they need.

In Court

At the height of a political corruption trial, the prosecuting attorney attacked a witness.

"Isn't it true", the lawyer bellowed, "that you accepted five thousand dollars to compromise this case?"

The witness did not respond.

The lawyer repeated, "I said, isn't it true that you accepted five thousand dollars to compromise this case?"

The witness still did not respond.

Finally, the judge leaned over and said, "Sir, please answer the question."

"Oh, sorry your honor", the startled witness said, "I thought he was talking to you!"

CHANGES

FileCabinet CS Driver Documents dialog

After this release when you print a document from a non-CS application to FileCabinet CS, the ***Store Document in folder(s)*** dialog displays the most recently used folder(s) and the Drawer ID. The last used folder(s) and Drawer ID are displayed by default. In FileCabinet CS Drawer Control, the dialog will not properly refresh the ***Store Document in folder(s)*** list after changing the Drawer ID setting.

C Song We are family

a Listen to the song. Are the words in bold right or wrong? Put a ✓ or an ✗ in column A.

b Listen again and correct the wrong words in column B.

We are family

		A	B
Everyone can see we're **friends**	1	___	_____
As we **walk** on by	2	___	_____
And we flock just like **birds** of a feather	3	___	_____
I won't **say** no lie	4	___	_____
All of the **women** around us they say	5	___	_____
"Can they be that **friendly**?	6	___	_____
Just let me state for the **record**	7	___	_____
We're giving **money** in a family dose	8	___	_____
We are family			
I got all my sisters with me			
We are family			
Get up everybody, sing			
We are family, etc			
Living life is **great** and we've just begun	9	___	_____
To get our share of this **world's** delights	10	___	_____
High hopes we have for the **summer**	11	___	_____
And our goal's in **sight**	12	___	_____
No, we don't get **sad**	13	___	_____
Here's what we call our **golden** rule:	14	___	_____
Have faith in you and the **work** you do	15	___	_____
You won't go **down**, oh no	16	___	_____
This is our family **jewel**	17	___	_____
We are family, etc.			

Glossary

flock like birds of a feather = stay together, like birds of the same species

state for the record = say so that everybody knows it

dose = the amount of a medicine you have to take

delights = nice things

our goal = what we are trying to do

jewel = a valuable stone, e.g. a diamond

Song facts

The song was originally recorded in 1979 by Sister Sledge, four sisters whose last name was Sledge. The writers of the song (Bernard Edwards and Nile Rodgers) got the idea for the song from seeing how well the four sisters got along with each other.

We are family was a worldwide hit and became an anthem for women's groups, sports teams, and political parties.

Request for Taxpayer Identification Number and Certification

Give Form to the requester. Do not send to the IRS.

Print or type. See Specific Instructions on page 3.

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the Part I instructions on page 3. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN* on page 3.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number

or

Employer identification number

Part II Certification

Under penalties of perjury, I certify that:

1. The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
2. I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
3. I am a U.S. citizen or other U.S. person (defined below); and
4. The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions on page 3.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For information on future developments regarding Form W-9 and its instructions, such as legislation enacted after we release it, go to www.irs.gov/fw9.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid)
- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See *What is backup withholding?* on page 2.

By signing the filled-out form, you:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued),
2. Certify that you are not subject to backup withholding unless you have been notified by the IRS that you are subject to backup withholding as a result of a failure to report all interest or dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See *What is backup withholding?* on page 2.

Things You Need To Know About Your Statement

What is a Credit Limit?

The Total Credit Limit shows the maximum credit available on your account. We may limit the amount of credit available for cash advances. If that's the case, it will be reflected in the Credit Limit for Cash Advances section of your statement. If your balance exceeds the Total Credit Limit,

What does Available Credit mean?

Available Credit is the amount available for transactions through the Statement Closing Date

What is Minimum Payment?

You must pay at least the minimum monthly payment shown on your statement by the payment due date, even if you don't receive your statement. You may pay more than the minimum payment due or pay your balance in full. If you pay more than the minimum payment due, up to three of your next statements may show an option to take a payment holiday wherein non-payment of the minimum amount would not result in your account being delinquent, instead we promise to be grateful during these hard times.

Payment Must Be Received By "Due Date" The date by which you payment must be received to keep your account from being delinquent. If the "Due Date" falls on a weekend or holiday we will consider your payment made on the next business day as made on time

Payments may be made:

(a) in full

(b) by partial payments an amount equal to the Total Minimum Payments due

(c) on any amount greater than (b)

If a credit appears it appears before your total New Balance, the amount is a credit and will be applied to future purchases.

What If I have more questions?

Call us at 1 800 841 3939 or visit www.capitalone.ca/onlinebanking if you have any questions we're available 24/7. You can call us collect at 1 519 624 2727 if you are outside of Canada or the U.S. Contact us immediately. If you don't look at mail.

Please notify us in case of errors or questions about your bill. If you think your bill is wrong, or if you need more information about a transaction on your bill, write us at within 30 days at Capital One P.O. Box 5019, Scarborough ON M1R 5L1 (Attn: Customer Relations). Please include your name and account number. The billing amount of the disputed item and explain why you believe there is an error. We will acknowledge your letter within 21 days and will correct the error as quickly as we believe the bill was incorrect within 90 days. If you have a complaint about your credit card account, you can call the toll-free number on the back of your card or write to us at Capital One, P.O. Box 5019, Scarborough, ON M1R 5L1 within Customer Relations. You can also write to the Financial Consumer Agency of Canada, 6th Floor, Enterprise Building, 427 Laurier Avenue West, Ottawa, ON K1R 1B9.

What does Foreign Exchange mean?

For all transactions made outside Canada we will bill you in Canadian dollars when you obtain a cash advance or use your card or account to make a purchase in a foreign currency. We convert the transaction in U.S. dollars and convert it to Canadian dollars on the day we receive a record of the transaction. We make the conversion at our rate of exchange current at the time, plus a currency conversion charge. Only Account Access Cheques written in Canadian currency will be honored

Can you please explain Administration Fees?

Take a look at your Important Disclosures for fee amounts. You'll be charged for an extra copy of your monthly statement (there's no cost if emailed as online PDF) and up to 3 copies of a transaction.

How can I avoid Interest Charges?

(a) Grace Period. You will have a grace period on most interest charges on new purchases and new, other charges (other than cash advances and special transfers and fees) to pay your total New Balance in full at time for it to be credited by the date shown by the banking Due Date. Being the grace period on cash advances and special transfers and fees.

(b) Purchases, Special Purchases and Other Charges. If you do not pay the entire "New Balance" by the date of "due you" next statement you will be charged interest at all charges from the statement from the date the transaction occurred. You may reduce the amount of interest charges that may be assessed by paying more than the minimum payment.

(c) Cash Advances and Special Transfers. Cash advances and special transfers and their associated fees are assessed an interest charge from the date of the transaction or the date the transaction is processed to your account or the first calendar day of the current billing period. Although these transactions are not eligible for a grace period, you may reduce the amount of interest charge that may be assessed by making your payment early or increasing the amount of your payment.

(d) Transfers. Transfers to your account begin accruing interest on the day the transfer check is issued, even the transfer is posted to the purchase segment and qualifies for a grace period.

Mister Youse
Subject: No more filibusters
Re: Government Operations & Politics

Dear Mister Youse

Dear Senator

Not every matter should require 60 votes to move forward. It is time to end the practice of the filibuster and let the US Senate do its job. The budget, immigration reform, and gun control are simply too important to be stalled by obstructionist tactics.

Sincerely,
Archie Ersatz

11 Do not disassemble charger take it to a qualified serviceman when service or repair is required Incorrect reassembly may result in a risk of electric shock or fire

12 To reduce risk of electric shock unplug charger from outlet before attempting any maintenance or cleaning

13 **Heed Warnings** — All warnings on the appliance and in the operating instructions should be obtained to

14 **Follow Instructions** — All operating and use instructions should be followed

15 **Cleaning** — Unplug the video product from the wall outlet before cleaning Do not use liquid cleaners or aerosol cleaners Use a damp cloth for cleaning

16 **Grounding or Polarization** — This video product is equipped with a polarized alternating current line plug (a plug having one blade wider than the other) This plug will fit into the power outlet only one way This is a safety feature If you are unable to insert the plug fully into the outlet try reversing the plug If the plug should still fail to fit contact your electrician to replace your obsolete outlet Do not defeat the safety purpose of the polarized plug

17 **Overloading** — Do not overload wall outlets and extension cords as this can result in a risk of fire or electric shock

18 **Object and Liquid Entry** — Never push objects of any kind into the video product through openings as they may touch dangerous voltage points or short out parts that could result in a fire or electric shock Never spill liquid of any kind on the video product

19 **Damage Requiring Service** — Unplug this video product from the wall outlet and refer servicing to qualified service personnel under the following conditions

a When the power supply cord or plug is damaged

b If liquid has been spilled or objects have fallen into the video product.

c If the video product has been exposed to rain or water

d If the video product does not operate normally by following the operating instructions Adjust only those controls that are covered by the operating instructions as an improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the video product to its normal operation

e If the video product has been dropped or the cabinet has been damaged

f When the video product exhibits a distinct change in performance — this indicates a need for service

20 **Replacement Parts** — When replacement parts are required be sure the service technician has used replacement parts specified by the manufacturer that have the same characteristics as the original part Unauthorized substitutions may result in fire electric shock or other hazards

21 **Safety Check** — Upon completion of any service or repairs on this video product, ask the service technician to perform safety checks to determine that the video product is in proper operating condition

WARNING TO PREVENT FIRE OR SHOCK HAZARD, DO NOT EXPOSE THIS UNIT TO RAIN OR MOISTURE.

That last number should have been 1347611, and I see you already handled that. Greg! Thanks!

I have worked some of these tickets. If not all will be addressed today. The ones that I have worked are in red with the information listed below.

1350623 - Mexico FMP - paper jam - 4/6

1350534 - Large format - document askew - 4/6

1348184 – FMP badge - personal - 4/5 – just picked up this ticket

1347839 – Yemen – paper jam – 4/5 – I have completed this ticket. My notes below.

Checked paper levels on all drawers and removed the drawers to check for paper jams. Then I power cycled the machine sent a test print to the printer Yemen and it is working.

Another user tested the fax portion as well and that worked.

Closing case.

1347830 – FMP 2nd floor next to Yemen – blank screen - 4/5 – I have completed this ticket. My notes below.

Checked Follow me printer and restarted the machine, then tested the badging and it worked as well as allowing me to print my test job.

What is happening with the follow me printers is that one person is logged in and printing their job. They leave without badging out and then next person goes to badge in and gets an error. Thus causing the machine needing to be restarted.

Closing case.

1347729 - FMP badge won't enroll - personal 4/3 – I will work this ticket today.

1347311 - FMP badge reader - not working - 4/3 - This is not a badge reader issue. This case was for a loaner laptop.

Putin accuses Muslims of trying to annihilate all Christians

Nov 14 02

By Ambrose Evans-Pritchard
in Brussels
and Julius Strauss
in Moscow

Islamic radicals are pursuing the systematic annihilation of non-Muslims, Vladimir Putin, the Russian President, claimed yesterday.

Speaking at a European Union summit in Brussels, Mr Putin said Western civilisation faced a mortal threat from Muslim terrorists, warning they had plans to create a "worldwide Caliphate."

His words overshadowed the pan-Muslim achievement of the summit, which was to end years of wrangling over Russia's isolated exclave in Kaliningrad. The two blocs reached a compromise deal that will prevent Russian citizens from being cut off in the Baltic port as the EU's borders move east in 2004.

Mr. Putin said the world no longer faced isolated acts of terrorism but a "concerted effort and program" by a global network bent on slaughter, perhaps with nuclear weapons.

"They talk of the need to kill all 'Cross-bearers. If you are Christian, your life is threatened, but even if you reject your beliefs in accordance with their philosophy you will be killed," he said.

He added that the West should face up to the reality that Chechen terrorists are religious extremists in league with al-Qaeda, rather than a separatist movement stalking a breakaway republic.

If the West failed to deal with the Chechen terrorist threat, there would be a repeat of the Moscow theatre siege and the Bali massacre "all over the world," he said.

The Russian President secured a joint EU-Russia action plan to fight terrorism at the mini-summit but he was firmly warned that Europe would not give Russia carte blanche in its fight against terrorism, particularly after reports that fragmentation bombs were being used widely against civilians in Chechnya.

Anders Fogh Rasmussen, the Prime Minister of Denmark, which holds the rotating EU presidency, said, "We, of course, support Russia in the fight against terrorism. But I also want to say that it is not a long-term solution to the Chechnya problem to launch a military action and bomb the country to pieces."

He called on Moscow to abide by human rights agreements, prosecute war criminals in Chechnya, admit international observers to the conflict zone and seek a political settlement.

Privately, EU diplomats said Mr Putin was playing the al-Qaeda card for all it was worth, seeing it as a useful way to create a sense of common purpose with the West and heighten the strategic value of Russia.

The resolution of the Kaliningrad issue will have satisfied Mr. Putin. The Russian media had warned of a "Iron Curtain" coming down and enclosing one million Russians stuck inside EU territory.

Random Stuff Sent From Your Fax Machine
Fax something interesting toll free to 1-888 877 1655 or 1-503 200 1300

To the right are pages that folks have faxed us recently. Click any thumbnail to see the large version and rate it for interestingness

You can fax something interesting to 1 888 877 1655 (your boss will never notice... maybe) or 1 503 200-1300 (long distance to Portland, Oregon) and it should appear here within a couple of minutes. (It's a toll free number if you're in the USA.) Keep it clean & legal.

Fax single page documents with no cover sheet. If you fax more than one page, only the last page will appear here. We try to snip off the top few pixels of the page where your company name and fax number should appear, but make no promises that this will actually work.

Privacy Policy: We hate spam and junk faxes and will absolutely not send you any unsolicited e-mail or faxes. We won't share your information with marketers or anyone else.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I d like to test it just to make sure it works How can I do that?

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here s how to do both

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States) When it s finished transmitting, point your web browser to Fax Toy — it a a fun web site that displays whatever is faxed to that number Within a minute, your fax should appear on the site Click the thumbnail to see a large version

To test the receive functionality of your fax machine, point your web browser to FaxZero this site lets you send faxes for free to anywhere in the United States and Canada Within a few minutes your fax machine should ring — hopefully, it will automatically answer and spit out the test fax

November 17, 2012 Sebastopol CERT Communications Group Drill

The Purpose of this drill is to expand team competence and operational effectiveness. There are two core functions and responsibilities of the Communications Group: 1) Provide real time information about the streets and neighborhoods of the City, and 2) Provide radio communication between CERT Command and specialty CERT teams operating within the City.

The principle elements of this drill are:

1) Message handling: from neighborhoods, through Division Anchors, to Net Control – then prioritized and forwarded to Sebastopol Fire Department (or designee). The last link will be simulated.
2) Net control operations, to include management of frequencies, equipment, personnel, traffic and message handling.
3) Comm Group Leader to manage second frequency communication between specialty teams and tactical information from Division Anchors.

Timing

0900 Core Team Arrives
- Hospitality—Mary Nordstrom
- Public Information Officer – Skip Jarrils
- Division Anchors – Janie Frigault
- Neighborhood FRS Teams –

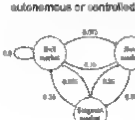
Markov Models

Markov models are stochastic (probabilistic) models that assume the future is dependent only on the present, not the past ("memoryless"). The key distinguishing characteristics between Markov models is whether the system state is fully observable or not, and whether the system is autonomous or controlled.



Markov Chain (fully observable/autonomous): The simplest model: the state is modeled as a single random variable that changes values based on the previous state. They can be represented with a directed graph or a transition matrix. They can also handle cases where the random variable changes through time. In that case each time point has its own graph/matrix containing the relevant transition probabilities

Hidden Markov Model (partially observable/autonomous): Models hidden state variables ("latent variables") that cause observed output states, and attempts to estimate the hidden variable by the status of the observed outputs. It can attempt to figure out how the hidden states affect each other as well as how the hidden states affect the output.

Markov Decision Process (fully observable/controlled) Models decision making under conditions where outcomes are only partially under the control of the decision maker (is always). They're an extension of Markov Chains with choices and outcomes added. The usual goal of the model is to find a "policy" for the decision maker: a function that specifies what action to choose based on current state. This is closely related to reinforcement learning.

Partially-Observable Markov Decision Process (partially observable/controlled). Same as above but without always knowing what the state is when you're making a decision NP-complete

a. Waiver. Failure to insist on strict performance of any provision of this Agreement shall not be deemed a waiver of rights or remedies that either party may have and shall not relieve either party from the obligation to comply in the future with any provision of this Agreement. No waiver shall be effective unless it is in writing and signed by the party against whom the waiver is asserted. A waiver on one occasion shall not be deemed a waiver of rights or obligations on any other occasion.

b. Severability. If any term or provision of this Agreement is found by a court of competent jurisdiction to be invalid, void or unenforceable, then such term or provision shall be construed in a manner designed to effectuate the intent of such term or provision to the maximum extent possible, or, if such construction is not possible, then such term or provision shall be severed from this Agreement and all other terms and provisions of this Agreement shall remain in full force and effect.

c. Governing Law. This Agreement will be governed by and construed in accordance with the laws of the state in which the Service is performed, without regard to its conflict of laws principles. If the Service is performed in more than one state, then this Agreement will be governed by and construed in accordance with the laws of the state in which the majority of the Service is performed, without regard to its conflict of laws principles.

d. Periodic Increases/Waiver of Short Term. The Fee Amount may be increased or decreased pursuant to the terms of this Agreement. If the Fee Amount is increased more than once during any twelve month period, customer may terminate this Agreement upon thirty days written notice to Company. Failure to terminate this Agreement within thirty days of receipt of notice of such increase shall constitute acceptance of the increase. Company may waive the thirty day notice requirement in writing or by verbal notice, which is confirmed in writing by Company. Customer may terminate this Agreement without cause upon thirty days written notice to Company. Company may waive the thirty day notice requirement in writing or by verbal notice, which is confirmed in writing by Company.

e. Attorneys' Fees. Should any litigation be commenced between the parties to this Agreement concerning this Agreement, the prevailing party in such litigation shall be entitled to, in addition to any other relief that may be granted in the litigation, reasonable attorneys' fees and costs incurred in the litigation.

f. Entire Agreement; Amendments. This Agreement and any Exhibits hereto constitute the entire agreement between the parties and supersedes any prior understandings, agreements or representations by or between the parties, written or oral, which may have related to the subject matter hereof in any way. This Agreement may be amended or modified only by a written instrument executed by both Company and Customer.

g. Time is the Essence. Time is of the essence in the performance of this Agreement.

h. Counterparts; Facsimile. This Agreement may be executed in any number of counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. A facsimile signature shall be deemed an original signature.

i. Survivability. In the event that any provision of this Agreement shall be deemed void, invalid or unenforceable, such provision shall be severed from this Agreement and the remaining provisions of this Agreement shall remain in full force and effect.

j. No Construction Against Drafting Party. No term or provision of this Agreement shall be construed against any party on the basis that such party did not draft the language or on the basis that such party did not draft the language or on the basis that such party did not draft the language.

k. Assignment. Customer shall not assign this Agreement without the prior written consent of Company. Company may assign this Agreement to any affiliate or subsidiary of Company or to any successor in interest of Company without the consent of Customer.

HER2 Chromogenic

Enumeration of Circulating Tumor Cells by OncoCEE™ 44

Number of CK+ CTCs	22
Number of Other CTMs (CK-)	22

Results should be correlated and interpreted in conjunction with all other pertinent clinicopathological findings. Cancer investigators believe that presence of circulating tumor cells (CTCs) in blood is an indicator of metastasis. Metastasis is a complex multistep process that includes epithelial-to-mesenchymal transition (EMT), in which tumor cells are characterized by loss of cell adhesion, expression of E-cadherin, expression of mesenchymal markers, increased cell motility, and invasiveness (1). HER2 is recognized as an important predictive and prognostic tumor in breast cancer (2). HER2 status is predictive of a potential response to HER2 targeted agents such as lytoxib and trastuzumab (3).

*CTC is defined as CD45- DAPI+ CK+ or CK- cell

Busy hour call attempts

Description

The chart below plots the busy hour call attempts (BHCA) for each 1 day interval. BHCA is represented as a summation of calls completed, calls rejected and other failures during the busy hour as measured by calls attempted. If multiple PRIs are included, their data is aggregated so as to derive on a combined busy hour. Since the busy hour is calculated daily the chart will never plot data more frequently than daily.

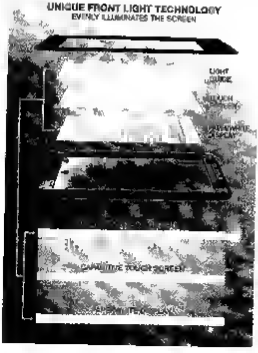
Read in Bright Sunlight with No Glare

Kindle Paperwhite has a matte screen that reflects light like ordinary paper so you can read as easily in bright sunlight as in your living room with no glare.

Read at Night

With Kindle Paperwhite, reading in bed just got better. The patented built-in light illuminates the screen, not the entire room, so you won't disturb your partner when you can't put your book down at night.

Patented Built-in Light



Patented built-in light

Designed for Reading

Unlike a backlit tablet display, Kindle Paperwhite guides light towards the surface o ink display (see above) so that the light never shines directly towards your eyes, e you to read comfortably without eye strain. The built-in light illuminates the screen evenly than a book light or lighted cover.

Perfectly Balanced Whiteness

We worked on Kindle Paperwhite for over two years to perfect the uniformity of th in light. By tuning out a fiber optic cable into a set and nanoimprinting to ensure perfectly even distribution of light. Our design uses nanoscale up-lot diffractive pi to enable tight control over the direction of the light. Enjoy reading with exceptio lighting uniformity and evenly balanced whiteness across the entire display. See h comes looks in different lighting conditions.

Adjustable Brightness

Your eyes adjust to the amount of light around you, so you'll prefer dimmer lights reading in a dark setting and brighter light when reading in well-lit surroundings. Adjust the brightness of Kindle Paperwhite across a wide spectrum—from low light brightness—so you can read comfortably in any setting.

Power Efficient

Because our patented technology enables fine-grain control over where the light i diffused, Kindle Paperwhite uses low-power LEDs, requiring very little power to ev illuminate the entire screen.

Converting Signal Strength Percentage to dBm Values

Executive Summary

WildPackets' 802.11 wireless LAN packet analyzers, AiroPeek and AiroPeek NX, provide a measurement of RF signal strength represented by a percentage value. The question sometimes arises as to why a percentage metric is used, and how this relates to the actual RF energy that is present in the environment. This paper discusses RF technology with sufficient detail to provide a basis for understanding the issues related to signal strength measurement.

Part I Nondeductible Contributions to Traditional IRAs and Distributions From Traditional, SEP, and SIMPLE IRAs

Complete this part only if one or more of the following apply.

- You made nondeductible contributions to a traditional IRA for 2015.
- You took distributions from a traditional, SEP, or SIMPLE IRA in 2015 and you made nondeductible contributions to a traditional IRA in 2015 or an earlier year. For this purpose, a distribution does not include a rollover, one-time distribution to fund an HSA, conversion, recharacterization, or return of certain contributions.
- You converted part, but not all, of your traditional, SEP, and SIMPLE IRAs to Roth IRAs in 2015 (excluding any portion you recharacterized) and you have nondeductible contributions to a traditional IRA in 2015 or an earlier year.

1	Enter your nondeductible contributions to traditional IRAs for 2015 including those made for 2015 from January 1, 2016, through April 18, 2016 (see instructions)	1	
2	Enter your total basis in traditional IRAs (see instructions)	2	
3	Add lines 1 and 2	3	
	In 2015, did you take a distribution from traditional, SEP, or SIMPLE IRAs, or make a Roth IRA conversion? — **No** ▶ Enter the amount from line 3 on line 14. Do not complete the rest of Part I. — **Yes** ▶ Go to line 4		
4	Enter those contributions included on line 1 that were made from January 1, 2016, through April 18, 2016	4	
5	Subtract line 4 from line 3	5	
6	Enter the value of **all** your traditional, SEP, and SIMPLE IRAs as of December 31, 2015, plus any outstanding rollovers (see instructions)	6	
7	Enter your distributions from traditional SEP and SIMPLE IRAs in 2015. Do not include rollovers, a one-time distribution to fund an HSA, conversions to a Roth IRA, certain returned contributions, or recharacterizations of traditional IRA contributions (see instructions)	7	
8	Enter the net amount you converted from traditional SEP and SIMPLE IRAs to Roth IRAs in 2015. Do not include amounts converted that you later recharacterized (see instructions). Add: enter this amount on line 16	8	
9	Add lines 6, 7, and 8	9	
10	Divide line 5 by line 9. Enter the result as a decimal rounded to at least 3 places. If the result is 1.000 or more, enter "1.000"	10 ×	
11	Multiply line 8 by line 10. This is the nontaxable portion of the amount you converted to Roth IRAs. Add: enter this amount on line 17	11	
12	Multiply line 7 by line 10. This is the nontaxable portion of your distributions that you did not convert to a Roth IRA	12	
13	Add lines 11 and 12. This is the nontaxable portion of all your distributions	13	
14	Subtract line 13 from line 3. This is **your total basis in traditional IRAs for 2015 and earlier years**	14	
15	**Taxable amount.** Subtract line 12 from line 7. If more than zero, also include this amount on Form 1040, line 15b; Form 1040A, line 11b; or Form 1040NR, line 16b	15	

Note. You may be subject to an additional 10% tax on the amount on line 15 if you were under age 59½ at the time of the distribution (see instructions).

Can You Relate?

A man arrived home from work at his usual hour to find it had not been one of his wife's better days. Nothing he said or did was right.

Around seven o'clock, he suggested that he go outside, pretend to have just gotten home from work, and start their evening all over again.

His wife agreed.

He went outside, returned with a big smile, and announced, "Honey, I'm home!"

She scolded, "And exactly where have you been? It's after seven o'clock!"

Comments:

This info is so handy although I have posted it before. I'm doing it again.

Windows, seats, mirrors, steering wheel position (easy entry/exit) until the key can be removed from the ignition, then fully turn one direction by doing the switch a full turn - wait approximately 2 seconds (or longer), then turning to the opposite direction, holding for about 5 seconds or longer. It is not unusual to have to do this action up to forty times before it disconnects. The positioning of many of these seat systems will not fully function until the proper number of turns in each set is made over the battery.

If your seats refuse to move in one or more directions, try this:

1. Hold down the switch for the seat that does not move. That is, if the seat will not move forward, hold down the switch that moves the seat backward, to the direction opposite the direction that does NOT move. That is, if the seat will not move forward, hold the switch that moves the seat backward.
2. Release the memory button and move the control of the affected section of the seat in the direction you want to move. Be careful as you work.

This applies to any of the seat position adjustments.

Synchronizing Head Restraints.

If the power supply was interrupted (battery disconnected or low), the head restraints are no longer adjusted to the correct height. To reset them to the adjustment feature, turn the ignition key to accessory (lock position 2), move the seat completely forward and the head restraint fully down and hold respective buttons for approximately two seconds.

Synchronizing, power windows

If the power supply was interrupted (battery disconnected or low), the windows cannot be opened or closed by the keyless feature. To synchronize the express feature, press side of power window switch forward to open until the window is completely closed and hold for additional 2 seconds. Repeat procedure for each window. The auto mode (left open and closing procedure of the windows should now be restored). Note: This sometimes works as well for problems with manual operation of the windows, but not always. ALSO: if your windows don't close fully with one touch operation, and/or gym bag does not work - especially if they start going up, stop, then retract partially - lubricate the locks with silicone spray.[1]

Synchronizing sliding/pop up roof

If the power supply was interrupted (battery disconnected or low), or if the sliding pop-up roof is blocked during the tilt-opening procedure, the system has to be synchronized. To do so turn ignition key to steering lock position 2, move and hold switch in direction (1) until the sliding pop up roof is completely closed, and hold for additional 1 second. If the pop-up roof simply will not open or close all the way, or tips up and down, clean the tracks and lubricate them with the Wd-40 lube, available for pennies.

NOTES/COMMENTS:

Is the Holy Spirit a Person?

Section one

A Historical Perspective

Part a. – How it used to be

As far as most Seventh-day Adventists are concerned, the question "Is the Holy Spirit a person" may at first seem very easy to answer particularly as Ellen White has said that He is a person but as will be seen in this study, there is more to the "seemingly simple" enquiry than initially meets the eye. In other words this is a question that is not so easily answered as it first may appear.

In their very early years, it was not generally taught within Seventh-day Adventism that the Holy Spirit is a person. Even when Ellen revealed through Ellen White that He is a person (this was around the end of the 19th century/beginning of the 20th century) they still did not regard Him as someone with individuality like God and Christ. In section two of this study we shall see why they reasoned this way. This is where we shall be taking a look at what the Scriptures reveal concerning the Holy Spirit.

It was only after Ellen White had died (1915) that the idea developed amongst Seventh-day Adventists that the Holy Spirit is an individual person like God and Christ but it took decades after her death for this belief to become normative. This "new view" eventually led to the development and acceptance of a certain rendering of the trinity doctrine which for the very first time in 1980 was officially voted into the fundamental beliefs of the Seventh-day Adventist Church. This was accomplished at the General Conference Session held at Dallas, Texas.

This latter belief although not exactly the same as orthodoxy does have enough of the basics to term it a trinity doctrine.

In summary it can be said that throughout the 71 years of Ellen White's ministry (1844-1915) also for the decades immediately following her death, this trinity teaching was not a belief that was held by the Seventh-day Adventist Church. The reason for this was twofold.

Firstly the Holy Spirit was not regarded as an individual like God and Christ whilst secondly the trinity concept itself cannot be found in the Scriptures. The latter is why the trinity doctrine must always remain an assumed doctrine.

It must also be said that during this changeover of beliefs concerning the Holy Spirit, Seventh-day Adventists changed their beliefs concerning Christ. This is because after Ellen White's death some of our leaders began to say that what was taught whilst she was alive is error. Again this "new view" eventually caught on but like the new view of the Holy Spirit, it did take decades to be so.

The nature of the Holy Spirit a mystery

In 1903 the chief physician of Seventh-day Adventism, namely John Harvey Kellogg, published a book called 'The Living Temple'. Whilst it is not the purpose of this study to go into all the details here, suffice to say it was considered to be heretical. In other words it was not in keeping with that which was believed and taught by Seventh-day Adventists. This book was not published by the Seventh-day Adventist Church. Kellogg had it published privately.

How do I disable or turn off the firewall on my router?

You cannot disable the firewall on the router. D-Link routers use **NAT** (Network Address Translation) which allows multiple hosts to share a single address and make many concurrent connections. All D-Link routers have a DMZ option which will open all incoming ports to a single computer on your local network

- What is NAT?
- What is DMZ?

Because Defendants' course decisions survive rational basis scrutiny (*see* Part II.B.1.c of this Order), Defendants are entitled to summary judgment on Plaintiffs' as-applied equal protection claims.

III. RULING

Because Plaintiffs fail to raise any genuine issue of material fact to support their as-applied claims, Defendants' Motion is GRANTED.

IT IS SO ORDERED.

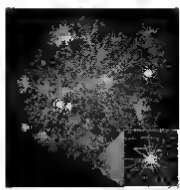
Internet

From Wikipedia, the free encyclopedia

The Internet is a global system of interconnected computer networks that use the standard Internet Protocol Suite (TCP/IP) to serve billions of users worldwide. It is a network of networks that consists of millions of private, public, academic, business, and government networks of local to global scope, linked by a broad array of electronic, wireless, and optical networking technologies. The Internet carries a vast range of information resources and services, such as the inter-linked hypertext documents of the World Wide Web (WWW) and the infrastructure to support email.



Most traditional communications media, such as telephony, radio, television, paper mail and newspapers are reshaped, redefined, or even bypassed by the Internet, giving rise to new services such as Voice over IP, Internet telephony, Internet radio, Internet television, online newspapers, and video on demand. Newspaper publishing has been reshaped into Web sites, blogging, and feeds. The Internet has enabled or accelerated the creation of new forms of human interaction through instant messaging, Internet forums, and social networking.

The origins of the Internet date back to research in the 1960s, commissioned by the United States government to develop networks of the military agencies to make sound, fault-tolerant, and distributed computer networks. A decade-long research effort, the ARPANET, was initially funded by the U.S. Department of Defense. The research and a period of decision-making led to the first mes

Department of Consumer Affairs

Debt Collection: Money Judgments and Frozen Bank Accounts

Information for Consumers

Debt collection was the #1 complaint category for the Department of Consumer Affairs (DCA) in 2008, with complaint volume increasing nearly 70% compared to 2007. Although DCA can mediate many of the complaints we receive, we cannot mediate issues that involve money judgments and frozen bank accounts. To help you protect yourself and your money, DCA created this fact sheet, which includes what to do when you need assistance.

Money Judgments

What is a money judgment?
If a person or company (known as the "creditor") sues you, you may find you owe a certain amount of money and the judge decides in the creditor's favor. The judge gives the creditor a "money judgment." The creditor has a right to try to collect that money from you, even if you say you don't owe it. In addition, a money judgment means that creditor may try to take money directly from your bank account to pay off the debt.

If I have a money judgment against me, what happens to the money in my bank account?
One way a creditor can try to collect on a money judgment is to issue a legal papers to the bank or credit union requiring it to restrain or "freeze" a portion of your bank account. This allows a creditor to take money directly from the account.

On what date does a bank have to satisfy a money judgment?
In New York State, as of January 1, 2009, even if a creditor has a judgment against you, the creditor can't take, restrain, or freeze all of the money in your account—*no matter how much you owe.*

Exempt Funds

Under State and Federal law, certain money may never be taken by creditors to satisfy money judgments. (See *Are there exceptions to the Exempt Income Protection Act?*) This money is considered "exempt funds." You may choose to use exempt funds to pay a debt you owe, but a creditor cannot freeze or forcibly take those funds. So if you or your bank account to pay off a debt.

Exempt funds include the following:

- ✓ Supplemental Security Income (SSI)
- ✓ Social Security retirement
- ✓ Social Security Disability (SSD)
- ✓ Public assistance (Temporary Assistance for Needy Families, TANF)
- ✓ Income earned while receiving SSI or public assistance
- ✓ Disability benefits
- ✓ Workers' compensation benefits
- ✓ Veterans benefits
- ✓ Black lung benefits
- ✓ Spousal support, maintenance (alimony) or child support
- ✓ Railroad retirement
- ✓ Unemployment benefits

✓ **Wages.** Ninety per cent (90%) of your wages earned during the past 10 days are exempt if you need them for basic needs such as shelter (rent or mortgage), food, and medicine. This means that if you earn $600 per week, up to $3,600 would be exempt from an account freeze, if you need that money for critical expenses like rent or mortgage, food, or medicine.

✓ **Most public or private pensions.** Public or private pensions are usually exempt from collection.

Exempt Income Protection Act of 2008

Under a new law effective January 1, 2009—the Exempt Income Protection Act of 2008—some money held in bank accounts is protected to ensure that consumers have sufficient funds available in case they have needs such as rent, food, and medicine.

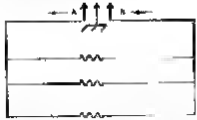
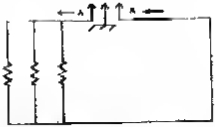
Notice that in each circuit (above) there is only *one* path that the electricity can follow. There are no places where the current can branch into one path or another. When you look at a circuit that has only one path to follow, you are looking at *a series circuit*.

Parallel Circuits

Often you will find circuits in which there is more than one path that the current can follow. As current flows from point A to point B it comes to a branch. Like a fork in the road. When this happens, the current will flow through **all** the branches at the same time. The amount of current that will flow through each branch is depending on the resistance found in the branch. The part of a circuit where current is flowing in two or more parts of the circuit at the same time is called a *parallel circuit*.

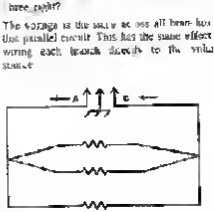


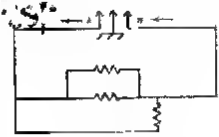
In this circuit, you will notice that there are three paths, or branches through which current can flow at the same time. This is a parallel circuit.

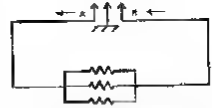


Look at this circuit and count the number of paths that current can flow at the same time. Three, right?

The voltage in the battery goes all branches in this parallel circuit. This has the same effect as wiring each branch directly to the voltage source.







Notice that like series circuits, the same parallel circuit can be drawn in many different ways.

Presumably you want to test your fax machine by sending a fax from it and receiving a fax with it. Here s how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States) When it s finished transmitting, point your web browser to Fax Toy — it s a fun web site that displays whatever is faxed to that number Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Chapter 6. Ensuring smooth cluster failover

6.1. NFSv4 lease time

For exports used by NFSv4 clients, the NFS server hands out leases which the client holds for the duration of file access and then relinquishes. If the NFS resource shuts down or migrates while one of its clients is holding a lease and the client never lets go of the lease — at which point the server considers the lease expired after the expiration of a certain grace period.

While any clients are still holding unexpired leases, the NFS server maintains an open file handle on the underlying file system, preventing it from being unmounted. The `exportfs` resource agent handles this through the `wait_for_leasetime_on_stop` resource parameter — when set it simply times out the grace period before declaring the resource properly stopped. At that point the cluster can proceed by unmounting the underlying filesystem (and subsequently bringing both the filesystem and the NFS export up on the other cluster node).

On some systems, the grace period is set to 90 seconds by default, which may cause a prolonged period of NFS lock-up that clients experience during an NFS service transition on the cluster. To allow for faster failover, you may decrease the grace period by issuing the following command on the cluster nodes (this example sets the grace period to 10 seconds):

```
#echo 10 > /proc/fs/nfsd/nfsv4leasetime
```

Note

The `nfsv4leasetime` virtual file may be modified only when the NFS kernel server is stopped, and any modification becomes active only after it restarts.

Have you ever wondered what the difference
Is between Grandmothers and Grandfathers? Well, here it is. There was this
loving grandfather who always made a special effort to spend time with his
son's family on weekends. Every Saturday morning he would take his
5-year-old granddaughter out for a drive in the car for some quality time
pancakes, ice cream, candy- just him and his granddaughter.

One particular Saturday, however, he had a terrible cold and could not get
out of bed. He knew his granddaughter always looked forward to their
drives and would be very disappointed. Luckily, his wife came to the
rescue and said that she would take their granddaughter for her weekly
drive and breakfast. When they returned, the little girl anxiously ran
upstairs to see her grandfather who was still in bed.

Well, did you enjoy your ride with grandma?" he asked. Not
really, Pa Pa, it was boring. We didn't see a single asshole, queer, lesbian,
piece of crap, horse's ass, socialist left wing Obama lover, blind bastard,
dipshit, Muslim camel humper or son of a bitch anywhere we went! "We just
drove around and Grandma smiled at everyone she saw. I really didn't have
any
fun"
Almost brings a tear to your eye, doesn't it?

PAYMENT PLAN AGREEMENT TERMS AND CONDITIONS (Applies to licensees who finance their insurance through the ICBC Payment Plan)

How We Apply Your Payments

Past due payment amounts are in addition to the amounts identified on the Payment Plan Schedule.

We will apply your payments first to any unpaid instalment amount and unpaid instalment fees, in the order listed above by the current payment date amount which will bear the Total Plan Amount.

Each payment amount includes a Finance Fee. This amount is the amount by applying the Finance rate to your monthly or quarterly amounts owing.

Failure or Payment Default Charges

Unless ICBC has agreed otherwise and/or terminated this, under a agreement Payment Plan Agreement, will become immediately due upon ICBC's discretion. All legal costs and expenses incurred are added to the outstanding balance owed to ICBC must be paid by you.

Pre-notification waiver. Fixed Pre-Authorization Debits ("ADs")

You will receive notification by point-of-sale if there is change to the amount or payment date(s).

Canadian Payments Association

All Canadian financial institutions are members of the Canadian Payments Association (CPA). CPA provides the efficiency, safety and soundness of the clearing and payment systems including cheques, wire transfers, direct deposits, pre-authorized debits, bill payments and point-of-sale debits. CPA rules and related agreements ensure that the system is safe and secure and that payments are exchanged efficiently.

You may make a claim for a reimbursement when a PAD is incorrectly charged to your account under the terms of this agreement or as set out in Rule H1 and H2 of the Canadian Payments Association.

Agreement in Total Plan Amount

You may opt to increase the Total Plan Amount in your Payment Plan agreement, when you decrease mid-term change your vehicle, licence and insurance with your Autoplan broker.

All changes to the insured fees and premium amounts will become the remaining Total Plan amount and result in the recalculation of payment with interest amounts.

Terms and conditions of a Total Agreement will continue to apply to the increased agreement.

A new Payment Plan agreement, or a revised and Payment Plan Schedule as of the change agreement, effective date will be issued to replace the revised agreement.

Changes to Payment Plan Agreements

Please see your nearest Autoplan broker to request any changes to the Agreement, which applies the following:

a. Increase payments applies to the Total Plan Amount.
b. Accounts Agreement options
   - notify your Autoplan broker immediately if your bank account information changes, and,
   - provide your Autoplan broker a specimen cheque marked "VOID" for account information changes to comply with pre-authorized Debit (PAD) or instructions by the Canadian Payments Association.
c. Payment date changes.
   - changed by the payment day which is two payment schedule in one month, if payment day falls on a weekend or statutory holiday

It is your responsibility to ensure there are sufficient funds in the account to cover each payment amount/debit, and,

d. Add-on insurance is not applicable to the Total Plan Amount.

Declining Payment s and/or Increased Plan Balances

Your property ICBC at apply any Autoplan refund amount due as you, of the remaining Total Plan Amount.

We will send you a refund for any unused portion in the amount. After this refund has been issued, the remaining Plan Amount is the Autoplan refund, but we provide that there is no outstanding account balance with ICBC.

Termination/Cancellations of Insurance and Payment Plan Agreement(s)

Cancellation of both your Autoplan Policy and Payment Plan Agreement will require insurance be payment in any unpaid Withdrawal Amount(s) including any increased fees up to the Autoplan Policy's termination. If a credit balance results on the customer's account, it will be refunded providing there is no outstanding account owned with ICBC. Please see your nearest Autoplan broker to cancel your insurance and agreement.

Termination/Cancellation of Payment Plan Agreement Only (and not insurance)

ICBC or the autoplan broker may terminate or cancel the Payment Plan Agreement authorization at any time by giving written notice of cancellation to effect. Upon such termination, any outstanding balance for the payment Plan will require immediate full payment, however the vehicle licence and insurance must be cancelled at the same time. Please see your nearest Autoplan broker to cancel your agreement.

Implications

Despite some agreement that the recession will have significant effects on the labour market, there is little evidence that the current recession is more severe than the recessions of the 1980s and early 1990s. Although unemployment has risen by around 1 million since the start of the recession, this is not as large as the increase in unemployment between 1979 and 1981. Moreover, the number of people claiming benefits has increased by around 500,000 since the start of the recession, which is also not as large as the increase in the number of claimants between 1979 and 1981. However, the number of people claiming benefits has increased by around 500,000 since the start of the recession, which is also not as large as the increase in the number of claimants between 1979 and 1981.

Another implication of this finding concerns the macroeconomic aspect of the economy. The recession has not been as severe as the recessions of the 1980s and early 1990s. However, the number of people claiming benefits has increased by around 500,000 since the start of the recession, which is also not as large as the increase in the number of claimants between 1979 and 1981. However, the number of people claiming benefits has increased by around 500,000 since the start of the recession, which is also not as large as the increase in the number of claimants between 1979 and 1981.

A third implication of the study is that the government's policy response to the recession has been relatively effective. The government has not implemented any major new policies in response to the recession, but has instead relied on existing policies such as the Job Centre Plus and the New Deal. The government has also not implemented any major new policies in response to the recession, but has instead relied on existing policies such as the Job Centre Plus and the New Deal.

Use your cover letter to show how your talent and experience will solve a problem or drive results for your future employer. For example, if you say you're collaborative, give an example of how you used your collaboration skills at your last internship, and then show how that experience will benefit the employer.

It's all about personalization. Write a cover letter that uniquely presents the real you and the future impact only you can make at the company.

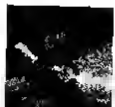
Quick Start Guide

1



Connect the thin coax cable running from the antenna to the "Antenna In" coax port on the TV or compatible device.

2

Plug the thin USB into the "USB PWR" port of the amplifier. Then plug the regular USB into the USB port of a TV or the 10ft adapter. If plugging the USB into the 110V adapter, plug the 110V adapter in to a 110V outlet.

3

Position the antenna toward the broadcast tower for optimal reception. For a listing of Texas channels available in your area and for the direction to point the antenna, go online to dtvmaps.com. Channels in green have the highest chance of reception.

4

Under "Channel Setup" (found by pressing "menu" on your remote), run a channel scan. Note that running a channel scan is NOT the same as pressing channel UP/DOWN on your remote. To keep your channel line up-to-date, it is a good idea to run a channel scan monthly.

5 The antenna may need to be repositioned. If so, run a channel scan every time you reposition the antenna.

3. The author discusses the diet and habits of animals living in the upper reaches of the

(A) indicate woolly rhinoceroses which swamp-dwelling mammoths would have needed food plants

(B) suggest that climate is not the only factor to take into consideration when

(C) address how deep a swamp-dwelling mammoth or rhinoceros would have to submerge itself to

(D) judge how different certain dinosaurs might have been if they had been warm-blooded

(E) demonstrate why certain dinosaurs might have failed to survive the cold, damp climate

4. The author refers to the American buffalo (line 21) primarily to

(A) show that the person assigned to interpret some fossil evidence is flawed

(B) draw a parallel between the mammoth's migration and settled ones

(C) introduce the conclusion that the mammoth evolved to live north of Siberia

(D) show that dinosaurs' digestive tract enabled a variety of food types

(E) illustrate a point in the text that inhibits one's range over time

5. The author uses the experience of "a man who has trampled around in virgin swamps..." (lines 28–30) to describe

(A) the scientific world's hardships as scientists settle to specialize in work

(B) how he was often misled in judgment in his habitat

(C) support that the skeletal exhumed specimens were in fact dinosaurs

(D) show that coordinates today in remote places were similar or could be found at the top of Europe

(E) support the claim that small feet are maladaptive for swamp dwellers

6. The author refers to mosquitoes (line 58) in order to

(A) suggest how modes of transportation in prehistoric times may be significantly different from those of today

(B) emphasize the difficulties encountered in collecting specimens in remote climates described in the passage

(C) prove that certain kinds of insects are extinct

(D) show that it is difficult to move speedily with the large specimens attached to the feet

(E) illustrate how a fanciful solution to a problem describes an evolutionary solution to the same problem

7. Why does the author find it necessary to point out that the dinosaurs and small mammals referred to in lines 6–8 had some characteristics in common?

(A) It is easy for all to forget, as modern-day people often walked in muddy terrain

(B) On the one hand... on the other hand... suggests that they had enough, flexible, traits.

(C) The author refers to ability in these specific aspects as the visual evidence

(D) The author's full stomach, knees, knees of rhinoceroses, swamp-dwelling animals

(E) Their footings, like their hind legs, had webs very small feet.

8. If a reader read the expression "in this case" (line 64) he suggest that traditional knowledge of the human species, as such, is

(A) complacent, only of information like any lone

(B) based of a certain, and as soon, like

(C) very, very hard to take must be laid aside, like

(D) a result of a secret spy to

(E) collection of useful practices, like the care

9. Which of the following, if true, disproved the author's claim that dinosaurs were ill-suited to warm, tropical climates?

(A) Dinosaurs lived in close to the same temperatures

(B) Some dinosaurs had webbed feet

(C) Dinosaurs were found on the same river

(D) Dinosaurs were well adapted for various

(E) Dinosaur fossils were found at the same site as

Best Meatloaf Recipe

This is one of the best meatloaf recipes that I've come across in a long time. Is easy and tasty enough for dinner guests. You can serve it without any sauce or add a tomato or mushroom sauce to give a bit of flair. Hope that you find this to be the best meatloaf recipe for you!

Best Meatloaf Recipe Ingredients

- 1 pound ground beef
- 1/2 pound ground pork
- 1/2 pound ground veal
- 1/2 cup celery finely chopped
- 1/4 cup green bell pepper finely chopped
- 1/2 cup fine bread crumbs
- 1/2 cup chopped parsley
- 1 tablespoon dried basil
- 1 large egg
- 1 and 1/2 teaspoons salt
- 1/2 teaspoon black pepper
- 6 slices peppered bacon slices

Best Meatloaf Directions

Turn oven on to 350 degrees.

Combine all ingredients except bacon in a large mixing bowl. Use your hands to mix the ingredients well. Only mix until all ingredients are evenly distributed or your meatloaf may become too dense.

Line a pie plate or baking sheet that has sides with foil and spoon the meatloaf mixture onto the foil. Shape into a loaf and cover with the peppered bacon slices.

Bake for approximately 1 and 1/2 hours. You should cook your meatloaf to an internal temperature of 170 degrees.

You may choose to serve the meatloaf with just the bacon on top or you may want to try to a mushroom sauce for the meatloaf recipe. You can make it while the meatloaf is cooking.

Mushroom Sauce for Meatloaf Recipe

- 1 and 1/2 cups canned beef gravy (or your own recipe)
- 1 tablespoon chopped shallots
- 16 g round mushrooms finely chopped preferably portabellas for this sauce
- 3 tablespoons butter
- 1 teaspoon lemon juice

In a frying pan cook the shallots and mushrooms in the 3 tablespoons of butter for 5 minutes stirring occasionally. Add the lemon juice and gravy. Bring to a boil while stirring and serve while hot.

Would you like to check your work?

Your proof should be used to check:

- ✔ Re-sizing and checking wrong digit
- ✔ That you've chosen all the media you want
- ✔ Your daily limit, and if you've hit the right file size
- ✔ The orientation of your design, you don't want to find out you've ordered landscape when you wanted portrait

Your proof can't help with:

- ✘ Color proofing - what you see on your screen will always look slightly different to how it will look when printed. For more information please see our FAQs

However, if in doubt we're happy to check your files and flag up any issues. Make sure you've uploaded your files early enough to allow time for this. Most proofs are returned within one hour.

Equal Employment Opportunity is

THE LAW

Private Employers, State and Local Governments, Educational Institutions, Employment Agencies and Labor Organizations

Applicants to and employees of most private employers, state and local governments, educational institutions, employment agencies and labor organizations are protected under Federal law from discrimination on the following bases:

RACE, COLOR, RELIGION, SEX, NATIONAL ORIGIN

Title VII of the Civil Rights Act of 1964, as amended, protects applicants and employees from discrimination in hiring, promotion, discharge, pay, fringe benefits, job training, classification, referral, and other aspects of employment, on the basis of race, color, religion, sex (including pregnancy), or national origin. Religious discrimination includes failing to reasonably accommodate an employee's religious practices where the accommodation does not impose undue hardship.

DISABILITY

Title I and Title V of the Americans with Disabilities Act of 1990, as amended, protect qualified individuals from discrimination on the basis of disability in hiring, promotion, discharge, pay, fringe benefits, job training, classification, referral, and other aspects of employment. Disability discrimination includes not making reasonable accommodation to the known physical or mental limitations of an otherwise qualified individual with a disability who is an applicant or employee, barring undue hardship.

AGE

The Age Discrimination in Employment Act of 1967, as amended, protects applicants and employees 40 years of age or older from discrimination based on age in hiring, promotion, discharge, pay, fringe benefits, job training, classification, referral, and other aspects of employment.

SEX (WAGES)

In addition to sex discrimination prohibited by Title VII of the Civil Rights Act, as amended, the Equal Pay Act of 1963, as amended, prohibits sex discrimination in the payment of wages to women and men performing substantially equal work, in jobs that require equal skill, effort, and responsibility, under similar working conditions, in the same establishment.

GENETICS

Title II of the Genetic Information Nondiscrimination Act of 2008 protects applicants and employees from discrimination based on genetic information in hiring, promotion, discharge, pay, fringe benefits, job training, classification, referral, and other aspects of employment. GINA also restricts employers' acquisition of genetic information, and strictly limits disclosure of genetic information. Genetic information includes information about genetic tests of applicants, employees, or their family members; the manifestation of diseases or disorders in family members (family medical history); and requests for or receipt of genetic services by applicants, employees, or their family members.

RETALIATION

All of these Federal laws prohibit covered entities from retaliating against a person who files a charge of discrimination, participates in a discrimination proceeding, or otherwise opposes an unlawful employment practice.

WHAT TO DO IF YOU BELIEVE DISCRIMINATION HAS OCCURRED

There are strict time limits for filing charges of employment discrimination. To preserve the ability of EEOC to act on your behalf and to protect your right to file a private lawsuit, should you ultimately need it, you should contact EEOC promptly when discrimination is suspected.

The U.S. Equal Employment Opportunity Commission (EEOC) 1-800-669-4000 (toll-free) or 1-800-669-6820 (toll-free TTY number for individuals with hearing impairments). EEOC field office information is available at www.eeoc.gov or in most telephone directories in the U.S. Government or Federal Government section. Additional information about EEOC, including information about charge filing, is available at www.eeoc.gov

20/70 A Balance Diet for Life Wednesday, March 18, 4-5:15 p.m.
Food plays an important role in our lives. Some foods are nourishing and are connected to good health and other foods actually deplete our system of important vitamins and minerals. When we eat too many processed or refined foods, we feel guilty and upset for making these choices. Wouldn't it be exciting to create a habit of eating nourishing foods 80% of the time and still able to enjoy some the foods you love in moderation?

Break the Salt, Fat and Sugar Habit Wednesday, April 1, 4-5:15 p.m.
Did you know that eating large amounts of fat, sugar and salty foods also the basis a shortstory which in turn can increase cravings? If you are compelled to eat these foods, you are not alone. We will examine how to break this cycle by learning to replace fat, sugar and salt with foods that do not trigger the brain/body in a negative way. You will love the way you feel.

Explore Healing Spices to Enhance the Flavor of Food & Health; Wednesday, May 20, 4-5:30 p.m.
Breakthrough scientific research is finding that spices are loaded with antioxidants and other unique health-enhancing components. Studies of dietary patterns around the world confirm that spice-consuming populations have the lowest incidence of such life-threatening diseases as heart disease, cancer, diabetes, and Alzheimer's. Examine a variety of herbs and spices and discover not only their healing properties but how to incorporate them into your life.

Sugar Busters; Wednesday, June 17, 4-5:15 p.m.
Do you find that you crave sugar? Are you frustrated that sugar is in EVERYTHING? Sugar is hidden in most foods you wouldn't suspect. Learn how to control your sweet tooth and uncover those sweet hiding places where sugar is found.

The Cancer Support Center gives strength, guidance and support to anyone living with a cancer diagnosis, as well as to their loved ones.

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. This site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Returning or Exchanging This Product

Returns are always inconvenient. But if you will follow these instructions carefully, we can process your return or exchange quickly and with a minimum of difficulty.

1. Call the company where you originally purchased the product. If you purchased it from PetDoors.com, call us at 1-800-826-2871 (press 2) with your order number so we can issue you an RMA number (return merchandise authorization). Place that number prominently on the outside of the package.
2. Ship the item Back to:
   PetDoors.com
   202 Teuk Farm Road Building F-1
   San Luis Obispo, California 93401

If the Product Was Damaged or Defective:

1. If the product you received is defective, follow the instructions above for returns/exchanges. We will send the ring out shipping charge in addition to the cost of the product upon receipt. In addition we will deduct the original shipping charge from any replacement product shipping charge.
2. If your shipment was damaged in transit you must notify us within five business days. We will immediately ship a replacement and take care of any damage claims with the carrier. You will incur an additional cost. **After five days, you may be refused compensation or replacement for the damage.**

Additional Information

1. It is your responsibility to ensure that the package is properly packaged for shipment back. Please realize that the packaging you received has already been used once. It may not continue to be adequate to ensure a safe return. You may wish to use the services of a professional shipping service to ensure adequate packaging.
2. Be especially careful of leaving loose objects in the box which may scratch other objects. Merchandise that is damaged in shipping may not be accepted for refund. We will refuse shipments that are obviously damaged.
3. We recommend you purchase adequate insurance. If your shipment is lost or damaged in transit, you will collect from the carrier, not us. The carrier will not reimburse you for more than the amount insured (the default if you decline insuring may be $100). Please note that carriers may wish to examine the packaging if you file a damage claim.
4. We recommend you pay the slight premium for proof of delivery.
5. Do not ship COD to us. We refuse all COD shipments.
6. Shipping charges are not refundable.
7. In the case where you were not charged ground shipping on the product, the original shipping charge (which has been waived) will be deducted from the refund in case of a return.

of debts to the Government of Canada or to a provincial or territorial government.

REPAYMENT

Your debt is due and payable in full upon receipt of this statement. If you cannot pay in full, you are expected to submit the minimum monthly payment indicated on this statement. Payments with remittance will be accepted as partial payment only and not in full satisfaction of the debt. Please include the number indicated on this statement to process a payment arrangement. If you are receiving Employment Insurance (EI) benefits, are have not requested a payment arrangement, 50% of your benefits will be withheld to recover the total amount of the EI debt. Fees may be charged for NSF cheques.

All payments/credits may be applied to any amounts owed to HRSDC before refunds are issued. Refunds less than $5.00 will be issued upon request only. All payments may not be reflected on this statement.

REPAYMENT OF TAXABLE BENEFITS

If you repay a debt that was established because you received more taxable benefits than you were entitled to receive, an official receipt will be issued to you within the first two months of the next year.

CHANGE OF INFORMATION/GENERAL INQUIRIES

Please notify us immediately of any change of address, telephone number or for payment related inquiries.

INTEREST

If applicable, interest will be calculated to be on the program debt owing and will continue to accrue until the debt is paid in full. You may receive a tax receipt for payment of interest on a Canada Student Loan debt.

PRIVACY

Personal information is administered in accordance with the *Canada Student Loans Act*, the *Canada Student Financial Assistance Act*, the *Canada Pension Plan*, the *Employment Insurance Act* and the *Privacy Act*. It will be retained in personal information Bank SDC PPU 164. Individuals have the right to access their personal information. For instructions, please consult the Government publication *Info Source* available at Service Canada Centres and at the following Web site: http://infosource.gc.ca

PAYMENT INSTRUCTIONS

Payments may be made at your Canadian bank or financial institution through Internet (select "Govt of Canada HRSDC RHDCC") and by cheque or money order payable to the Receiver General for Canada. Please include this statement stub with all remittance.

Please include your Client ID with your cheque or money order. Do not send cash through the mail. Do not staple your payment to the remittance slip. Please mail your remittance to the payment office address shown below.

REMBOURSEMENT

Le remboursement de votre dette est exigible en entier dès la réception de ce relevé. S'il vous est impossible de rembourser le montant en entier, vous devez verser le paiement minimum mensuel indiqué. Paiements accompagnés de remittance ne seront acceptés qu'à titre de paiement partiel seulement et non comme paiement final de votre dette. Veuillez joindre le numéro indiqué sur le présent relevé pour discuter d'une entente de remboursement. Si vous êtes un prestataire de prestations régulières de l'assurance-emploi et que vous n'avez pas conclu de entente de paiement, 50% de vos prestations seront retenues pour recouvrer le plein montant de la dette d'assurance-emploi. Des frais peuvent être facturés pour les chèques sans provision.

Tous paiements/crédits peuvent être appliqués aux sommes dues à RHDCC avant qu'un remboursement soit émis. Les remboursements inférieurs à 5,00 $ ne seront émis que sur demande. Ce relevé de compte n'indique pas nécessairement tous les paiements.

REMBOURSEMENT DES PRESTATIONS IMPOSABLES

Si vous remboursez une dette qui a été établie parce que vous avez reçu des prestations imposables auxquelles vous n'aviez pas droit, un reçu officiel vous sera émis au cours des deux premiers mois de l'année suivante.

CHANGEMENT DE COORDONNÉES /
DEMANDES DE RENSEIGNEMENTS GÉNÉRAUX

Veuillez nous informer immédiatement de tout changement d'adresse et numéro de téléphone ou pour toutes questions relatives au versement

INTÉRÊT

Selon le programme, le montant sera calculé sur la dette s'il y a lieu et continuera de s'accumuler jusqu'à ce que la dette soit acquittée. Vous pourriez recevoir un reçu aux fins de l'impôt pour paiement d'intérêts sur une dette de prêts d'études canadien.

PROTECTION DES RENSEIGNEMENTS PERSONNELS

Les renseignements personnels sont traités conformément à la *Loi fédérale sur les prêts aux étudiants*, à la *Loi fédérale sur l'aide financière aux étudiants au Régime de pensions du Canada*, à la *Loi sur l'assurance-emploi* et à la *Loi sur la protection des renseignements personnels*. Ils sont conservés dans le fichier de renseignements personnels PPU 164 de DSC. Toute personne a le droit d'accéder aux renseignements personnels la concernant. Pour obtenir les directives, veuillez consulter la publication Info Source du gouvernement disponible aux Centres Service Canada et au site Web suivant : http://infosource.gc.ca

DIRECTIVES DE PAIEMENT

Vous pouvez effectuer vos paiements auprès de votre institution financière locale ainsi que par Internet (sélectionner «Gouv du Canada RHDCC HRSDC»), et par chèque ou mandat à l'ordre du **Receveur général du Canada**. Prière d'inclure ce bordereau de versement à votre remise.

Veuillez inclure votre numéro d'identification avec votre chèque ou mandat. N'envoyez pas d'argent comptant par la poste. Agrafez pas votre chèque ou mandat au bordereau de paiement.

Veuillez envoyer votre versement à l'adresse du bureau de paiement indiquée ci-dessous.

Hello!

This is a sample test file, which is being sent to you as per your request via the Interpage FreeFax(sm) Service!

This service is intended to provide a preliminary evaluation as to the quality and timeliness of Interpage's subscription fax service(s).

If you review the cover sheet which was transmitted with this fax, you will note the first letter of the name you had indicated in the TO: field of the FreeFax request page. This letter serves to correlate the fax request which you had sent with this trial fax transmission result.

This file is a sample MS Word file, many other file types are supported.

If you have any questions regarding Interpage's Outfax(sm) service, including the FaxLink/Inbound(sm) service with no-per or per-minute charges, please feel free to contact us at:

Phone: +1 (510) 315-2750 9AM to 5:30 PM M-F Pacific Time

E-Mail: insl-support@interpage.net

Web: http://www.interpage.net

Thank you for your interest!

Note: 1. Due to the numerous use of the FreeFax service, Interpage will randomly prevent persons from sending text messages - only a sheet/sheet sample message will be transmitted. You may establish a free account for evaluative purposes by filling out the form located at http://www.interpage.net/trial/fax_trial.html, entering any billing information, and clearly indicating a valid e-mail address and contact telephone number. Please call (510) 315-2750 for additional details.

2. This fax is not a solicitation nor is an offer. It was sent by a visitor to Interpage's web site who entered your destination number as a result of this test fax. As single visitor may not receive more than two faxes in a given week, however. If you find this annoying, you have my sincere apology and may contact us at (510) 315-2750 and we will block your fax number from the FreeFax service

Installing the Fax Driver

To use this fax driver with software applications that operate
with Microsoft Windows 2000/Windows XP/Windows Server 2003/Windows Vista/Windows Server 2008/Windows 7,
use the following installation procedure

Note

* If you use a SMB (NetBIOS network) printer as a shared printer on the server
  computer, use the Add Printer Wizard, and select "Network printer" when installing
  the fax driver.
* If you log on Windows as a Power User and run the installer, the
  installation may not be completed correctly. In this case, log in as an
  Administrator, and then retry the installation.
* If a message prompting you to restart your computer is displayed when using
  the installer, make sure to restart your computer. If you do not restart your
  computer, existing drivers may not operate correctly.
* If you are using the printer auto creation mechanism in a Citrix
@XenApp (Presentation Server) environment, you may not be able
  to correctly install this driverusing the Installer. If so, restart the XenApp
  Server computer and check the Printers folder (Printers and Faxes folder in Windows
  Server 2003). If any existing printer icons are no longer displayed,
  re install the relevant fax drivers in the XenApp Se

Hello.

FAX OUT TEST 3

Earn While You Learn

Our course shows you how to produce marketable pieces for publication. Whether you enjoy writing feature articles for magazines or stories for children, we can give you the skills you need to profit from your work. Every lesson you receive is packed with tips, insider information and professional pointers about the writing industry.

Right from the beginning of the course, your tutor will help you learn how to sell your ideas and your work. Many of our students begin making money with their first assignment. Our course teaches you how to tap into the huge demand for all kinds of written work, how to make the most of your skills, and how to market your work.

Our Double Guarantee

Part One. No matter which course you choose, you are fully protected by our no-risk, 21-day guarantee. You have three full weeks to go over the course materials once you've received them. If you decide not to proceed with the course, simply return the unused materials to us by registered mail. We'll issue you an immediate refund of all your fees with no questions asked.

Part Two. If you decide to take the Comprehensive, Romance, or Writing for Children courses, you are backed by an additional guarantee. If, by the time you have completed the assignments for your course, you have not been able to sell enough of your writing to cover the course fees, we will refund all the money you paid. It's as simple as that.

Online Learning

To make your at-home learning experience easy and efficient, your tuition includes full access to our online student center. As soon as you enroll, you'll be sent an email with your username and password. You can immediately log onto the site and begin downloading your lesson texts. We also courier the full course materials to your home so that you have hard copies of everything, too.

You can work on your course anywhere you have access to the Internet. Whether you're at home, work, school, or anywhere in between, you can read your next unit, send in an assignment, or review your corrected work. Distance education—the most convenient way to learn—is now even easier.

Start Training to Become a Published Writer Today

Send us your enrollment form in the enclosed prepaid envelope. Better still, call our toll-free enrollment hotline at 1-800-267-1829 or enroll online with your credit card number and our courier service will speed the materials to you. Writing for publication is an immensely satisfying and lucrative endeavor. Don't wait any longer. Let us help you turn your passion for writing into success.

Sincerely,

Alex Myers

Director

Game access

Hello Aaren!

Although we had a hard time getting it and weren't sure it was a true physical release we managed to procure a few copies of *Ori and the Blind Forest*. We checked the packaging for DRM codes and to our surprise this game (unlike some others this season) appeared to be given a genuine physical release after all.

We remembered that you had reserved this game and have shipped it to you out of your queue. If you can let us know if it works we may order more copies!

Wishing you the best.

Check that the dotted lines forming the four color blocks are all visible with no gaps. If OK select (Yes) on the control panel. If gaps are visible select (No) on the control panel to start the cleaning process and follow the prompts on the LCD

This Brother Inkjet machine has been finely tuned to provide excellent accurate and long lasting printed pages when using Genuine Brother Innobella(TM) ink

The use of non-Brother inks in this machine may potentially result in inferior output quality and/or machine damage.

Any required repairs for damages proven to result from using non-Brother inks in this machine may not be covered by the original machine limited warranty.

We strongly suggest you use only Genuine Brother Innobella(TM) inks when it is time for you to replace the ink cartridge(s)

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

Case # 1641443

Dear Ms Merlend

Your e-mail via the NYC link regarding the status of your application for public housing has been referred to me for a response.

I can understand your concern about not being offered an apartment in Leavitt St 34th Avenue Unfortunately the Housing Authority has many more applications than available apartment vacancies

According to our records, your public housing application was certified to Leavitt St 34th Avenue managed by Lattimer Gardens on April 12 2012 for one bedroom as a Working Family Priority 1, which is based solely on income and not housing need App cards on the waiting lists for all of our developments are selected according to the Tenant Selection and Assignment Plan by computer based upon their priority and certification date Unfortunately, due to the large number of eligible families and the limited number of available apartments, it is not possible to provide you with an estimate as to when you will be reached

Please be assured that the staff at Leavitt St 34th Avenue will notify you when you are reached on the waiting list for an apartment offer

Very truly yours,

Tina Lam, Director
Applications and Tenancy Administration Department

Presumably, you want to **test** your **fax machine** by sending a **fax** from it and receiving a **fax** with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page **fax** to 1-510-545-0990 (a number in Northern California.) When it's finished transmitting, point your web browser to **Fax** Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To *test* the receive functionality of your fax machine, point your web browser to [illegible] — this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your **fax machine** should ring — hopefully it will automatically answer and spit out the **test fax**

GET YOUR NEW THIN CLIENT SYSTEM UP AND RUNNING

Congratulations—welcome to enhanced security, reduced cost, less risk and a system that's a whole lot easier to manage.

HP ThinPro thin clients help improve productivity with quick deployment of simple, familiar and more reliable computing experiences.

It's easy to get started

This quickstart guide illustrates some of the most common tasks of setting up an HP ThinPro thin client. It is designed to help you get up and running, right out of the box. However, if you have questions, need more information or want to set up a more unique configuration, please refer to the HP ThinPro Administrator Guide at **www.hp.com/support/manuals/thinclients**. Select your thin client and its respective guide under *General Reference*.

LOGGING ON AND GETTING STARTED

The HP ThinPro interface appears when you first turn on the thin client and defaults to User Mode.

User Mode

- Allows restricted rights to subset of access connection creation and control panel applications. Allows restricted rights to subset of access connection creation and control panel applications.

Administrator Mode

- Allows full access to control panel applets, manipulation of HP ThinState Capture and Deploy, FTP images, etc.
- Defines which connections and connection types are visible when in User Mode, and limits users on deleting connections or creating new ones.

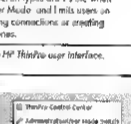
Note: You must log in with administrator permissions to access all components of the HP ThinPro user interface. The default password for Administrator Mode is: root.

To switch between User and Administrator mode:

1. Click the HP logo in the bottom left of the screen.

or

2. Position your cursor in the screen background and right-click. Then, select **Administrator/User Mode Switch.**
3. Enter your password.



Quick Tip

To determine if you are in User or Administrator mode:

A blue banner at the top of the console window designates User Mode.

A red banner at the top of the console window designates Administrator Mode.

VERSION CONTROL

BEST PRACTICES

COMMIT RELATED CHANGES

A commit should be a wrapper for related changes. For example, fixing two different bugs should produce two separate commits. Small, well-defined commits are much easier to understand and to merge.

Version control tools will rarely stop you from committing, but those commits will cause problems when you or someone else has to work with them later.

TEST CODE BEFORE YOU COMMIT

Resist the temptation to commit something that you "know" is complete. Test all of the changes in a commit to ensure that they don't cause regressions in the behavior of the project.

Automated testing systems are helpful for ensuring that commits don't disrupt the behavior of a project, but you should still perform manual tests on your own code.

KEEP CALM AND BRANCH ON

Branching is a core concept in version control. Use branches liberally to isolate your work. Branches are easy to create, work in, share, merge, and delete.

Branches isolate work in progress from finished work and allow you to create short, descriptive histories that don't jump around.

COMMIT often

Frequent commits let you take small steps and revert those steps if you make a mistake. Frequent commits help you avoid the need to manually track down what you changed since your last commit.

Commit early and often to avoid losing work and to share your changes with others.

WRITE GOOD COMMIT MESSAGES

Begin the commit message with a single short (less than 50 character) line summarizing the change. Follow this with a blank line and then a more thorough description.

Tools that work with commit messages rely on this convention to distinguish the summary from detailed descriptions.

Write your commit message in the present tense. "Fix bug" and "Adding feature" are examples.

Keep the second line blank.

Consider starting the detailed description with "Issue", "Motivation", "Solution", "Discussion", "Test Plan", "Drawbacks", "Alternatives", or "Unresolved questions".

MERGE OFTEN & WORKFLOW

Merging changes frequently helps you avoid long, painful merges that result from changes that drift too far apart.

Choose a workflow that works for you and your team. Consider using a workflow that is already established for the project you're working on.

DON'T COMMIT HALF-DONE WORK

Avoid the temptation to commit something that you "know" is complete. Test all of the changes in a commit to ensure that they don't cause regressions in the behavior of the project.

Automated testing systems are helpful for ensuring that commits don't disrupt the behavior of a project, but you should still perform manual tests on your own code.

VERSION CONTROL IS NOT A BACKUP SYSTEM

Version control is not a substitute for backups. Make sure that you have backups of your repository.

Distributed version control systems are resilient to data loss, but you should still ensure that important data is backed up.

HELP & DOCUMENTATION

Git has a built-in help system. Use `git help <command>` to get help with a command.

5 1 Give five ways of increasing the rate of the following reaction.

$H_2(g) + Br_2(g) \rightarrow 2HBr(g)$

Increasing the reactants' concentratio
Supplying the needed activation energ
Using a catalyst
Stirring the gases
Increasing the reaction vessel's pres

2 2. Explain in terms of collision theory why kindling is used to start a fire

Kindling has a larger surface area than a log, which increases the number of collisions betwee it and oxygen, so it will catch fire easier.

3 Examine the following reaction equations.

(i) $CO_2(g) + H_2(g) \rightarrow CO(g) + H_2O(g)$

(ii) $Fe^{3+}(aq) + Cr^{2+}(aq) \rightarrow Fe^{2+}(aq) + Cr^{3+}(aq)$

(iii) $FeO(s) + H_2O(l) \rightarrow Fe(OH)_2(s)$

2 (a) Which reaction is likely the fastest? Explain.

(i) is probably fastest, since gases have more kinetic energy than liquids or solids at the same temperature and pressure, which results in a faster collision rate.

Exotic Cuisine

One beautiful autumn day, a Park Ranger discovered a man sitting in the woods chewing away on a dead Bald Eagle.

"Hey mister, the Bald Eagle is a protected species, and killing one is punishable offense", said the Park Ranger.

The man was swiftly arrested, and ushered before the judge.

In court, he pleaded innocent to the charges against him, claiming that if he didn't eat the bald eagle he would have died from starvation.

"I was so hungry" complained the defensive camper, "the Bald Eagle was the only food I could find!"

To everyone's amazement, the judge ruled in his favor.

In the judge's closing statement he asked the man, "I would like you to tell me something before I let you go. I have never eaten a bald eagle, nor ever plan on it. But I'd like to know: What did it taste like?"

The man answered: "Well, it tasted like a cross between a Whooping Crane and a Spotted Owl."

OLD TERM ~ NEW TERM

CLEVER CLOGGS

"Goodbye and Hello"

At the end of last term before the summer break we ended the last week with the leavers trips to Carisbrooke castle followed by their graduation in the school hall and a social gathering of parents for refreshments afterwards

It was nice to see so many parents and friends coming together to join with us to celebrate the school leavers time with us. Maria and Brenda were both surprised by the amount of compliments given towards themselves and the staff - it makes it so worth while

With the summer break started the new setting was finally handed over a week late and in one day all the staff pitched in to move the contents of pre-school into the new building

However, with the builders in the new pre-school building...nothing could be put in place just piled at one side. Weeks passed and still the builders were in then on Friday 2nd September the builders finished.

Staff flooded in to move equipment into place and with extra hours spent getting the building just right the doors will be ready to open on Tuesday 6th September at 9am. However on Monday the 5th September the setting will be open between noon and 4pm for any parents wishing to have a sneak preview

The new entrance to the mobile will be from the lane just a little further down than before or when dropping off in school via the school playground through a small gate in the new fence. To begin with there will be no covered area however, we will try and get some covering up but bring an umbrella just in case. We are hoping a covered area will be put up next holiday in October, weather and money permitting!

We hope you will be as impressed as we are with the new building and wish you all a very happy time with us making lots of memories together for many years to come.

GOOD BYE

Welcome to

Windows® Fax and Scan

One place to scan and fax your documents

FAX You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem, and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan**.

3. On the toolbar, click **New Scan**.

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

noix de pecane et les noisettes Les tests sont demeurés négatifs pour les noix du Grenoble et les noix du Brésil

Impressions

1 Allergie de type I aux noix qui semble surtout évidente pour les noix de Cajou et probablement aussi les pistaches Elle a évidemment un risque de développer des hypersensibilités plus significatives aux autres noix même si les cuti réactions sont actuellement négatives sauf peut-être pour les amandes qu'elle tolère de façon courante sans problème
2 Conjonctivite allergique reliée à son hypersensibilité aux lapins
3 Hypersensibilité démontrable au pollen d'herbe à poux et aux acariens qui, pour le moment semble demeurer asymptomatique

Suggestions

1 Elle devra éviter les noix sauf les amandes qu'elle pourra continuer d'ingérer de façon régulière en autant qu'il n'apparaisse aucune réaction
2 Un arrêt ou retrait de nos Allergènes [illegible]

Hello!

This is a simple test file which is being sent to you as per your request via the "interpage" software.

The owner is attended to provide a preliminary evaluation as to the quality and timeliness of interpage's subscription / service(s).

If you receive the cover sheet which was transmitted with the fax, you will note the first letter of the name you have indicated in the TO: field of the FaxPlus request page. That letter serves to remind the fax request owner(s) the test one with this trial fax transmission initiated.

This file is a sample MS Word file... many other file types are supported.

If you have any questions regarding interpage's Software Service, including the FaxPlus internet service, with no per-use or per minute charges, please feel free to contact us at:

Phone: +1 (519) 215-2700 9AM to 9:30 PM Mon Pacific Time
E-Mail: mailto:support@interpage.net
Web: http://www.interpage.net

Thank you for your attention!

Notes: 1. Due to the malicious use of the FaxPlus service, interpage will no longer transmit personalized messages to the above FaxPlus recipient(s) will be terminated. You may establish a trial account for evaluative purposes by filling out the enclosed "Request Page" and mailing or faxing it to us at the return fax and contact telephone number. Please call (519) 215-2700 for assistance if desired.

2. This fax service is not free nor has it ever been. It was sent by a valid interpage's customer who initiated your transmission without your knowledge. If you do not wish to receive any more fax transmissions from interpage, please call us at (519) 215-2700 and we will block your fax number from being sent to you.

Other interpage Free service tricks:

Does your voicemail call you?

interpage Voicemail will not only notify you of new messages, but will also call you and play the message to you when it arrives. Choose from a variety of voices and languages, and even call you back if you don't answer.

Multiply the value of your old pager!

Use interpage to page text numeric messages to your cellphone or e-mail. Turn your mobile phone into a personal pager. Choose your own phone number. Work with existing pagers and email. No software installation. Free, and most importantly: The interpage's Directory service!

Know for sure that urgent alerts are received!

Currently not be operational WAIT is still operational!

Ok, well, maybe... Finally, a reliable and intelligent way to send an important message to a pager and be sure that it was received!

I was touring a British naval vessel, wearing my American flag pin As I asked the tour guide a question, he called out, "Madam, you are in distress!"
I was greatly confused until he pointed out that the flag on my pin was upside down the naval symbol for a ship in distress.
I fumbled with the sticky clasp for a moment, but was only able to turn the flag 90 degrees
"Ah," he said sternly, "now you're being boarded by pirates "

WARNING! ENTERING THE PUN ZONE!
It was a busy morning at the Third Annual International Clock Convention. Lunchtime, as always was designated "free time" and, for the most part, all the attendees - clocks and watches, one and all - would break off into groups of two or three for the break

The Grandfather Clock and The Old Dutch Clock hit it off well
The Mantel Clock and The Anniversary Clock found themselves similarly well-suited for one another
This went on until not a single clock was left in the convention hall except The Little Alarm Clock who went off by himself

While carpenters were working outside the old house I had just bought, I busied myself with indoor cleaning I had just finished washing the floor when one of the workmen asked to use the bathroom
With dismay I looked from his muddy boots to my newly scrubbed floors "Just a minute," I said, thinking of a quick solution "I'll put down newspapers "
"That's all right, lady " he responded "I'm already trained "

TODAY IN TRIVIA: **Which is the oldest holiday?** The celebration of the new year is the oldest of all holidays It was first observed in ancient Babylon about 4,000 years ago In the years around 2000 B C Babylonians celebrated the beginning of a new year on what is now March 25, although they themselves had no written calendar

QUIP OF THE DAY I considered ebonics, but there weren't enough holidays
THAT'S (ALMOST) ALL FOLKS!
Thought for the day -- A friend is a person with whom I may be sincere Before him I may think aloud I am arrived at last in the presence of a man so real and equal, that I may drop even those undermost garments of dissimulation, courtesy and second thought which men never put off and may deal with him with the simplicity and wholeness with which one chemical atom meets another ~ Ralph Waldo Emerson

***ONE-LINERS:* All I Needed to Know About Life I learned from Santa , ,**

~ Encourage people to believe in you.
~ Always remember who's naughty and who's nice
~ Don't pout.

~ It's as much fun to give as it is to receive
~ Some days it's ok to feel a little chubby
~ Make your presents known

~ Always ask for a little bit more than what you really want.
~ Bright red can make anyone look good.
~ Wear a wide belt and no-one will notice how many pounds you've gained
~ If you only show up once a year everyone will think you're very important.
~ Whenever you're at a loss for words, say "HO HO HO!"

Christmas Riddles

~ What do you have in December that you don't have in any other month? The letter "D"
~ What do you call a polar bear wearing ear muffs? Anything you want. He can't hear you!
~ What do you call a chicken at the North Pole? Lost.

Dad's pager went off, summoning him to the hospital where he is an anesthetist. As he raced toward the hospital, a patrol car sped up behind him--lights flashing.
Dad hung his stethoscope out the window to signal that he was on an emergency call.
Within seconds came the police officer's hand in response dangling a pair of handcuffs out the window.

***TODAY IN TRIVIA:* What is Mumping or St. Thomas's Day on December 21?** This is a day on which the poor used to go about begging, or as it was called going a-gooling, that is getting gifts to procure good things for Christmas (mump to beg).

~Winter Solstice Facts: The winter solstice is one of the two times each year that the Sun is at its farthest point from the equator and appears to stand still. It occurs today at 11:28 A.M. EST. The word solstice is derived from the Latin sol, or "Sun" and stitium, or "stoppage."

Thought for the day. Christmas is not a time or a season but a state of mind. To cherish peace and good will, to be plenteous in mercy, is to have the real spirit of Christmas. ~Calvin Coolidge 1927

Molecular Classification with CancerTYPE ID

FFPE Tissue Processing & Tumor Enrichment

- CancerTYPE ID requires as few as 300-500 viable tumor cells and is compatible with limited biopsy specimens such as FNAs, cytological specimens, and small core needle biopsies.
- CancerTYPE ID routinely employs laser guided microdissection to enrich for tumor specimen.

Gene Expression Profiling

- CancerTYPE ID uses a robust real-time RT-PCR platform to detect very small differences in gene expression.
- CancerTYPE ID measures and integrates the gene expression of 92 genes, 5 normalization genes and 87 lineage determinant and tissue-specific genes, most of which are not routinely measured by IHC.

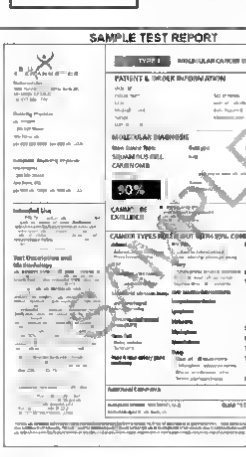
Reference Tumor Database & Algorithm

- CancerTYPE ID uses a computational algorithm to predict the patient's tumor type based on the degree of similarity of the sample's 92-gene expression profile to a reference database of gene expression profiles. The reference database contains gene expression information from over 2,000 tumor specimens of known histogenesis, and molecularly ~95% of all solid tumors based on incidence.
- The CancerTYPE ID algorithm provides a predicted main type and any sub-types in rank-order by relative probabilities, which are based on the tumor's gene expression similarity to tumors of these types in the reference database.

Molecular Classification

- CancerTYPE ID classifies 28 tumor types and 50 tumor subtypes.
- In an independent validation of 2998 blinded samples, the molecular diagnosis was 87% accurate for main tumor type and 86% accurate for tumor subtype.

SAMPLE TEST REPORT



Interpreting CancerTYPE ID Test Results

MOLECULAR DIAGNOSIS

The [illegible] molecular diagnosis. Based on 92 probability of matching an overall tumor type and sub-type in the CancerTYPE ID reference database. If a match probability is ≥ 90%, the tumor is reported as a definitive call. In this case, the test report will list indicate tumor types that can be ruled out and types that cannot be excluded.

CAN NOT BE EXCLUDED

When applicable, tumor types from the CancerTYPE ID reference database that share some gene expression profile similarity to the patient's sample such that they cannot be excluded. Item diagnostic consideration will be listed here in rank order.

RULE OUTS

The CancerTYPE ID test report also lists tumor types that can be ruled out with 95% confidence. In an independent validation of 2998 blinded samples, the rule-outs were 95% accurate. This may provide useful differential diagnostic information when two or more potential tumor types are suspected and one or more tumors may be ruled in the rule outs.

THE POSITIONING ERA COMETH

In the '50s, here sat ads predominated.

In the '70s, puffery ruled the roost.

...ive message that lays some sleep on advertising executives as a result of "the positioning era," how it came to be and what it means to us was presented in the first in a three-part series by two young principals both named of General Electric's advertising and sales promotion department. Jesse Vehr GE dept. Mr. Vehr was an account supervisor at Fletcher, Lesko & Beatty the Manhattan ten, before becoming president of Ries Cappiello Colwell, and Mr. Trout was a divisional ad manager for Universal. He read it up and ghosted at marketing services for Ries Cappiello.

BY JACK TROUT AND AL RIES
Vice Presidents Colwell

Today it has become obvious that advertising is entering a new era. An era where creativity is no longer the be-all.

The first few years of the '70s have given way to the brash pairings of the '70s. Today's emphasis is on hard-hitting competition. The kind of advertising that belongs to the past. There are too many products, too many companies, [redacted] to succeed.

A positive [redacted] have new requirements not only [redacted] ...ertising as we know it today.

A Time of Two Ads

If you have to sleep on critical films to watch the end of the last advertising era and the start of the new one, your choice would have to be Wednesday, April 7, 1971. In the New York Times that day was a full-page ad that proved to Rubirosa very little excitement in the

In 1969, we at Ogilvy Trout wrote an article entitled "Positioning is a game people play in today's looking-glass world," which appeared in the June, 1969, issue of Industrial Marketing. The article made positioning and counsel names all based on the "rules" of a game called positioning.

Our prediction, in particular, turned out to be startlingly accurate. As far as BCA, the supervisor time witnessed. A company has to hope to start a program looking to become the obvious that time has established."

The operative word at work, is "head-on." And while it's possible to compete successfully with a company leader (the article suggested several approaches), the rules of advertising say it can't be done "head-on."

Three years ago this raised a few eyebrows. What type of an ad may powerful, well-known-leader companies couldn't find supposed to this supposed business it may or should?

Before time was not enough. Not time BCA, but time Counsel. Maybe not the time now.

With two leader computer manufacturers fighting one right after another, the urge is say, "I told you so, but advertising

Less advertising a future-ago article, "Positioning renamed Why didn't GE and RCA Intent" appeared in the same publication.

We're an Over-Communicated Society

As GE the RCA found out, advertising doesn't work opposed to what we like it used to. Ogilvy reasons that in the middle level of the communications weight.

The passive consumption of advertising in the U.S. is approaching 3,000 a year. And while we can assume the advertiser's financial ability to dish it out, there's more involved than the consumer's mental ability to take it all in.

Each day thousands of messages compete for a share

Step Action
1 Power the printer OFF and ON
2 Disconnect the data cables and repeat the power OFF/ON procedure
3. Send a different print file to printer, and then send the problem print file to the printer again.
4. If the problem is isolated to a single file or incident, see Other Tests and Remedy Suggestions

If... Then... And...
The error remains displayed on the printer... Disconnect the data cable (USB, Ethernet, parallel, or other data cable type)....Repeat Step 1. Does the error return? If yes, you likely have a printer hardware issue. Contact Lexmark.

If... Then... And...
The printer returns to a Ready state... Try to print an internal test page such as the Menu Settings page(s) from the Reports menu. Did an internal printer test page print? If yes, this is probably a software, communication, or firmware-related issue. See Step 2 if no, the error returns again. Contact Lexmark

Common terms in your Explanation of Benefits

Depending on what kind of plan you have and medical services you've used, you may see some or all of these terms in your Explanation of Benefits (EOB) at one time or another. Here's some information about what each one means.

Daily Amount
A column heading found on the EOB's Part A and Inpatient Care section of your EOB.

This is the amount Medicare has set for you to pay for each day of your inpatient hospital stay for Medicare-covered services.

Medicare Approved Amount
The amount approved by Medicare for a medical service. If your provider accepts Medicare's approved amount, your provider agrees to charge you no more than the amount. Under assignment, you may be responsible for charges above the Medicare Approved Amount. Also known as Eligible Charge Amount.

Medicare Benefit Period
A period of time, determined by Medicare, that starts on the day you enter a hospital for inpatient care and ends when you have been out of the hospital or skilled nursing facility for 60 days in a row.

Medicare Part A Deductible
The amount you must pay before Medicare pays any additional charges for each Medicare benefit period. This amount is for Traditional Medicare Part A and is not applicable to your EOB.

Medicare Part B Coinsurance
The amount you're responsible to pay for each Covered Service you receive under Medicare Part B after your Part B deductible has been met.

Medicare Part B Deductible
The amount you must pay in a calendar year (January 1 to December 31) for Medicare Part B services before Medicare begins paying its share. Applies only to Traditional Medicare. The Part B deductible is found in the Medicare Part B section of your EOB.

Part B Excess Charge
Any service above the Medicare-approved amount that your health care provider may legally charge you. Typically, providers who have not entered into assignment agreements with Medicare may charge Part B excess charges. You may be responsible for these charges. Some federal and state laws limit the amount your health care provider may charge above the Medicare-Approved Amount for certain services.

Plan Cost-Share
Any amount charged to you when you receive a covered medical service or item. This amount takes the Medicare Part B deductible and coinsurance into account, as well as any other costs that you may be responsible for. This term is found in the Medicare Part B Services section of your EOB.

Medicare Supplement Plan B Copayment
A fixed amount (for example, $20) you pay for covered medical services after you meet the annual Medicare Part B deductible. It is usually found in the Medicare Part B Services section of your EOB.

Your Plan Deductible
The amount you must pay each year for certain health care expenses covered by your plan before your plan starts to pay. The annual limit is found in the Medical Services and Prescription Drugs sections of your EOB.

ROM Upgrade Utility (RUU)

Before Running the ROM Upgrade Utility

Before you run the ROM Upgrade Utility (RUU), make sure you check and do the following first

1. USB sync cable is connected to the computer
2. Beam, infrared and hibernation modes are disabled on the computer
3. All running applications on the computer have been closed
4. USB sync cable is connected to the Mobile Device to establish an ActiveSync connection with the computer
5. Do not interact with your Mobile Device unless instructed to do so

General Procedure on Installing the ROM Update

1. Back up your personal data from the Mobile Device to your computer using ActiveSync if you want to ensure you don't lose any of your data.
2. Run the program file of the ROM Update Utility (RUU) to install the ROM update to your Mobile Device. (The next section provides a detailed procedure on how to install the ROM Update)
3. Restore your personal data back to your Mobile Device using ActiveSync (Optional)

How to Install the ROM Update

It is very important that the help desk personnel understands very well the installation instructions. Actual hands-on practice with the installation procedures is needed for the personnel to better understand any installation problems users may have.

Before running the RUU, back up any personal data from the Mobile Device to the computer first using ActiveSync.

Close all running applications on the computer before running the ROM update installation.

General Instructions

Who Can Use this Application

If you are a U.S. citizen who does not have an address within the United States, you can use this application to register to vote in:

- Federal elections
- Most general elections
- Some primary elections
- Some special elections

Exceptions

Do not use this application if you live outside the United States and you are not going to return there. Instead, you should register to vote in the last place you lived before you left the United States. If you have never lived in the United States, you should register to vote in the place where your parent was last registered to vote before they left the United States.

New Hampshire voters will only be able to use this application to register to vote in federal elections.

North Dakota does not have voter registration.

When to Register to Vote

Each State has a deadline by which you must register to vote in an upcoming election. Check the deadline for your State on the last page of this booklet.

How to Submit Your Application

Mail your completed application to the address listed under your State in the State-by-State chart. Or deliver the application to your State's voter registration office.

The envelope must be postmarked by the registration deadline. If you are unsure of the deadline, you should mail your application well before the deadline. Some States require that your application be received by the deadline, not just postmarked by the deadline.

First Time Voters Who Register by Mail

If you are registering to vote for the first time in your jurisdiction and you mail in your application, you may be required to provide proof of identity the first time you vote.

Depending on the specific requirements for your State, you may need to provide identification with your application, or you may be required to provide identification when you vote in person or when you vote by mail for the first time. Check the requirements for your State in the State-by-State chart.

From The Desk of Dr Brian Edward
Head of Audit
Barclays Bank
United Kingdom

STRICTLY CONFIDENTIAL

My name is Brian Edward I am The Head of Audit Department with BARCLAYS BANK in England UK I am also the personal Account Manager to Late Ahmed Hassan

Late Mr Ahmed Hassan who is a citizen of Saudi Arabia used to work with an Agricultural Development company in Newcastle, England On April 21, 2008 my client, his wife, and their three children were involved in a car accident along Manchester M2 motorway All occupants of the vehicle unfortunately lost their lives Since then, I have made several enquiries to the Saudi Embassy to help locate any of his extended relatives, After these several unsuccessful attempts, I decided to trace his last name to locate any member of his family but all efforts prove abortive

I am contacting you to assist in claiming the money and property left behind by Late Mr Ahmed Hassan before they get confiscated or declared unserviceable by the bank where this huge deposit is lodged particularly the BARCLAYS BANK where the deceased had an account Valued at about ($12 5 Million US Dollars). Barclays bank has issued me a notice to provide the next of kin or have the account confiscated within the next fourteen official working days. Since I have been unsuccessful in locating the relatives for over 2 years now I have also attached the account statement of Late Mr Hassan to this message so you can knew that this is not a joke

I seek your consent to present you as the next of kin of the deceased so that the proceeds of this account valued at ($12 5 Million US Dollars) can be paid to you An attorney will be contacted to help revalidate and notarize all the necessary legal documents that will be used to back up the claim All I require is your honest cooperation to enable us seeing this deal through. I guarantee that this will be executed under legitimate arrangement that will protect you from any breach of the law

Please get in touch with me by email or Fax and provide your full name, address and contact telephone number for further correspondence. Please note that you will be compensated with 40% of the funds once this deal is completed

Example 3

The Acme Company would like to subnet its network (195 5 5 0) so that there are 50 separate subnets. They will need only 2 hosts in each subnet. Complete each of the following

NOTE Because there are so many subnets...you don't need to write them all out. If you can fill in the information required below (the subnet mask, the addresses for the first few subnets, and the total number of subnets created) you obviously get the idea.

Subnet	Network address	Host addresses	Broadcast address
Subnet mask 255.255.255.**252**			
First subnet	195.5.5.**0**	195.5.5.**1** - 195.5.5.**2**	195.5.5.**3**
Second subnet	195.5.5.**4**	195.5.5.**5** - 195.5.5.**6**	195.5.5.**7**
Third subnet	195.5.5.**8**	195.5.5.**9** - 195.5.5.**10**	195.5.5.**11**
Fourth subnet	195.5.5.**12**	195.5.5.**13** - 195.5.5.**14**	195.5.5.**15**
Fifth subnet	195.5.5.**16**	195.5.5.**17** - 195.5.5.**18**	195.5.5.**19**
Sixth subnet	195.5.5.**20**	195.5.5.**21** - 195.5.5.**22**	195.5.5.**23**
Seventh subnet	195.5.5.**24**	195.5.5.**25** - 195.5.5.**26**	195.5.5.**27**

How many subnets are actually created with this subnet mask you used? 64

Dear Internet,

I've attached the Shoutcast.exe that I have and I'm using for Henry Pinkerman. But other than we don't have much history of records. Henry was a great artist and collaborator as a co-inventor of the series of the results of which we've all been enjoying for a long time. We all began and have continued to enjoy his work. We have correspondences with the owner discussing our feedback for the future and

⚠ Important 911 Information

Ooma wants to make sure that you are aware of important differences in the way 911 service operates with Ooma when compared with traditional telephone service. Here's what you need to keep in mind.

Differences between traditional 911 service and Ooma 911...

Be advised that Ooma 911 service is less reliable than traditional 911 service. Some regions do not support enhanced 911 service and your emergency call may be routed to an emergency response center which does not keep your contact information on file.

Be prepared during any service interruption.

Ooma phone service depends not only on your continued subscription and payment for the service, but also on Internet connectivity and power to function. In the event of power, network, or Internet outages (including congestion), or if your service is disconnected or suspended due to non-payment, you may experience a failure, disruption or delay in your 911 service. We recommend that you keep an alternative phone service (such as a cellular telephone) handy to increase the reliability of your access to emergency services during any service interruption.

Do not disconnect.

Until you are told to do so by an emergency dispatcher, do not disconnect your 911 call. If you are inadvertently disconnected, call back immediately.

Keep your service address up to date

Ooma will attempt to provide the emergency operator with your service address, so please ensure that your information on file with us is always accurate and updated. You may update your address online or by calling customer support at 1-866-711-6662. If you do not do this (for example, if you are unable to speak during a 911 call), the emergency operator may assume that you are calling from the last registered address.

Inform other users.

You must notify members of your household and other potential users of your Ooma phone service of the nature and limitations of 911 emergency calls.

Limitations of Liability.

Ooma's terms of service limit and disclaim liability related to Ooma 911 service, so please read these carefully.

For a complete description of our Ooma 911 service, please see Ooma's terms of service at www.ooma.com/911.

Please leave this notice next to your phone.

Interstate 696 (I-696) is an auxiliary Interstate Highway that passes through downtown Detroit in the US state of Michigan. A segment of the State Trunkline Highway System, the 26-mile route runs east from I-96 in the downtown area, turning south concurrently with US Highway 127. It passes a Detroit assembly plant used by Chrysler and runs along or crosses parts of the Grand and Red Cedar rivers. Construction started in 1963, and the freeway opened on December 18, 1970. Some six miles of downtown were built over a historically black neighborhood that dates from the early 20th century. Community leaders opted not to fight the construction of the freeway, instead seeking affordable housing and relocation assistance for displaced residents. The city named the freeway in honor of a former mayor when it opened in 1970, but the local historical society proposed that the state rename it after Joseph E. Olds, the founder of Oldsmobile and the REO Motor Car Company after his mansion was demolished to make way for the freeway. The Michigan legislature approved the name "Olds Freeway" two years later. Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- *Anyone, anywhere* can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the document.
- PDF files *always print correctly* on any printing device.
- PDF files always display *exactly* as created, regardless of fonts, software, and operating system. Fonts and graphics are not lost due to platform, software and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and downloaded a page at a time for fast display on the Web.

Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will guide you in testing your HP fax machine using the HP Fax Test Service.

Print this document for easy reference by clicking the **Print** button in the upper right corner of this page.

Test your fax machine

To test the capabilities of your fax machine, follow the procedure below.

NOTE: Verify that your phone number is not blocked by your telephone company. Some companies offer anti-blocking features for phone numbers, services, and devices that you have specified. Please contact your telephone company for more information about these features.

NOTE: When sending faxes to the HP Fax Test Service, you will receive a Non-delivery Report (NDR) or **Delivery Error** before attempting connection. This is normal and is the result of the HP Fax Test Service's attempt to provide a brief, fictitious response. This response is different than the normal process of connecting to another fax machine, which can take several minutes. Please disregard the NDR or **Delivery Error** and follow the steps below.

1. Send a test page to the fax number assigned to you: **+1 888-329-8500**. (+1 888 329-8500).
2. When your fax is received by the HP Fax Test Service, we will generate a reply to your fax. If we receive a fax from your fax machine, we will send you a fax back to confirm that your fax machine is working properly.

If you do not receive a reply fax within 5 minutes, try the procedure with different types of paper. See the fax machine's user manual for more information about supported paper types.

NOTE: The most common cause of failure is incorrect fax machine setup. Be sure that you have entered your fax number correctly in the fax machine's configuration. Be sure to include any required prefixes, such as a 9 or 0, and the area code.

For more information or assistance, click **Contact HP** at the top of this page.
